# Let Us Become Tribal Messiahs

March 27, 1994  
Seoul, Korea

**Y**ESTERDAY, we witnessed a historic event. The former president of the Soviet Union, Mikhail Gorbachev, made a courtesy call on True Parents at their official residence in Hannam-dong. They talked together over lunch.

I think that the fact that Gorbachev made a courtesy call to Hannam-dong constitutes a historic event. Please reflect on why I am saying this in connection to the theme, "Let Us Become Tribal Messiahs."

Accompanied by his entourage, Gorbachev arrived at True Parents' official residence in Hannam-dong just before noon yesterday. Father and Mother, who already knew Gorbachev well from previous meetings, welcomed him warmly. Gorbachev himself entered the house with a very good spirit and grateful attitude.

When Westerners pay a visit to Hannam-dong, they are not accustomed to taking off their shoes and putting on slippers before entering the house. We have to ask them to do so. However, when Gorbachev saw the slippers lined up, he took off his shoes without hesitating. We did not have to ask him to do so.

I felt that he was a man who adapts himself well to any environment in which he finds himself. Father received him very warmly and they had lunch together, engaging in a discussion that was both serious and unreserved. At that time, Father had us report about some of the important projects he is developing worldwide, so that Gorbachev could know about them.

Although I had to leave during the proceedings to attend the sisterhood ceremony between Korean and Japanese women, I asked about the details later because I was so interested in what happened. Father met with Gorbachev privately for about thirty minutes, during which Father spoke sincerely with him and asked his cooperation. I heard that Gorbachev was very grateful,

and that the talks ended successfully, with Gorbachev promising to accept all that Father wished.

### *Father's prophecy about communism*

As you know, although Gorbachev is not currently president of Russia, he is a prominent political leader who has the distinction of being the greatest leader and hero of this century.

Father began predicting, about fifty years ago, that the communist world would collapse and that international communist activity would break down. As the years passed, several countries were overrun by communist ideology through the efforts of international communists.

Furthermore, Korea lost most of her land through the invasion of the North Korean communists; with refugees restricted to Pusan, we could not see the light of hope for our country.

Father predicted the fall of communism when Koreans were facing great threats, feeling the strength and fierceness of communist government in their bones. Father predicted the fall of the communist world while communists were gaining strength and expanding their power day by day. At that time, Father was living among the refugees in Pusan, in a space that was not big enough for him to stretch out his legs. Moreover, he had walked a thin line between life and death under the communist rule, and he suffered great hardship and anguish during his arduous escape to the South.

Proclaiming such things, Father walked a truly painful road and made extraordinary efforts to fulfill the heavenly timetable and heavenly way.

When Father taught us that we should work against communism in the early 1960s, even the senior members of the Unification Church thought, "Why should

TODAY'S WORLD is a publication of the World Mission Department of the Holy Spirit Association for the Unification of World Christianity. Founded in 1980 by Rev. Sun Myung Moon, it is written for the foreign missionaries and the members of the Unification Church. The purpose of this journal is to be a source of information and inspiration for its readers, a forum for their exchange of news and testimonies, and a sharing of heart among the brothers and sisters of the Unification Church's worldwide movement. Members of the Unification movement generally address or refer to Rev. and Mrs. Moon as "Father" and "Mother."

SUBSCRIPTIONS: United States: \$67 per year, \$35 for six months. Airmail to Canada, Mexico: \$80 per year, \$42 for six months; to Central, South America and Caribbean: \$90 per year, \$47 for six months; to Europe: \$100 per year, \$52 for six months; to the Middle East, Africa, Asia, and the South Pacific: \$110 per year, \$57 for six months. Surface mail to any country: \$81 per year. Make check payable and direct all inquiries to: Accord Bookstore, 481 Eighth Avenue, New York, NY 10001. Tel. (212) 967-4371.

# A New Dimension is Beginning

REVEREND SUN MYUNG MOON  
FEBRUARY 7, 1995  
WASHINGTON, D.C.

*he has written*] God, Adam, Eve, Cain, Abel; Satan, Adam, Eve, Cain, Abel. If the human ancestors had not fallen, Heavenly Father's orders would go directly to Adam, and Adam's orders would go to Eve. Then Eve as the mother would give orders to Cain, the oldest son, and finally they would reach the youngest son. This was the original heavenly order. However, the fall completely disturbed this heavenly order, and all family members fought each other. Because of the fighting and lack of unity, Heavenly Father could not dwell there. The original heavenly world was lost, and everything was completely nullified.

In place of Heavenly Father, Satan has controlled the whole world. In place of Adam, there was fallen

Adam. In place of Eve there was fallen Eve. In place of Cain there was fallen Cain. You should clearly understand that because of the fall we lost the original concept of order. History has been the story of salvation, restoration and re-creation. The providence of salvation is the providence of restoration and re-creation.

## THE FORMULA FOR RESTORING EVERYTHING

There is a heavenly formula for restoring everything, which goes back to the original process by which God created the world. First, Heavenly Father created the environment, including the sun, air, water and soil. Without these four elements human life, and indeed all living things, would die. Within the environment there are always subject and object relationships. This subject and object relationship is the formula. If you carefully analyze the mineral kingdom and plant kingdom you can find plus and minus in a reciprocal relationship. There are male and female animals. Human beings exist as men and

Translator: Hideo Oyamada

**H**IDEO Oyamada is the representative of the Eve nation. The Adam and Eve nations need to make unity. Therefore, he will be my interpreter. [Father laughs.] This is my 75th birthday and Mother's 52nd birthday. That is why I invited all the overseas missionaries to America. The fiftieth anniversary of the end of World War II marks a period of change. A new era and a new dimension is beginning. From the providential point of view, we do not have a heavenly nation. We do not have a heavenly fatherland. The greatest desire of all human beings is to have our original parents and our original fatherland. This is the original human desire ever since our birth. Because of the fall we lost our original human ancestor and our original fatherland. Christianity has tried to find the original ancestor and original fatherland. Human history after the fall records the search for this original ancestor and original fatherland.

*[Father writes on the blackboard and Mr. Oyamada reads the words*

*As objects in front of Heavenly Father, we should also invest and forget, invest and forget. To invest and forget means to sacrificially serve another person; that is the origin of the universe.*

women. The whole environment consists of plus and minus, subject and object.

Without subject and object, there can be no action or motion. The universe originated through some force or power. What was this energy, and where did it come from? Take for example, the husband and wife relationship: where does its energy come from? Which comes first, energy or action? A boy looks at a girl and then action starts. Action comes before force or energy. Reciprocal action does not come from a single existence; there need to be dual characteristics. When there is a reciprocal relationship between subject and object, the foundation for energy is created.

Then how do subject and object become united? The motivation is true love. Love is the motivation, and action is the result. A reciprocal relationship starts when one invests one's self. God's work of creation started with investment. God invested Himself and then forgot it, over and over continuously. Heavenly Father stands in the subject position and gives love to us in the object position. When we receive this love and investment from Heavenly Father and return energy to Him, that is the start of a reciprocal relationship. On that foundation, a bigger plus, a higher-dimension plus is created. That is why God created our original mind and gave us the desire to move from the individual level to ever higher dimensions, including the family level, clan level, tribal level, worldwide level and universal level, until we finally become the object of God.

What is God's motivation for creating? To create the object of love. Heavenly Father kept investing more and more, in order to have a bigger object. Heavenly Father has the same type of feelings as human beings. If you are lonely, what kind of partner do you seek? An object of love. As an absolute subject, God eternally invests and forgets, invests and forgets. As objects in front of Heavenly Father, we should also invest and forget, invest and forget. In this way we can become the objects of God.

To invest and forget means to sacrificially serve another person; that is the origin of the universe. As the subject of love, Heavenly Father needs an object to love. That is why He started creating the universe. As horizontal objects of love, we need to create the foundation upon which Heavenly Father can settle on this earth. The foundation of Heavenly Father's settlement is the family. This is the most fundamental unit of Heavenly Father's creation.

Everything will be organized and mobilized through the family unit. Through the family, Heavenly Father wants to dance and sing with us, enjoying a relationship with us. The core of the family is man and woman, husband and wife. Husband and wife should be united in mind and body. On that foundation, the husband becomes the plus and the wife becomes the minus. Within the couple, plus and minus should be united. Through this unity, the husband and wife become a higher-level plus, resulting in the creation of children. The husband and wife become parents, giving birth to children, who grow up and become parents in turn. These three generations compose the family.

God's formula is based on reciprocal relationships. When you look at your face you see two eyes, which function in a

reciprocal relationship. You do not have just one nostril; you have two nostrils, functioning in a reciprocal relationship. Everything exists for the sake of the object. What is the force that enables mind and body, husband and wife, parents and children to unite? True love. Where does true love come from? If you look for a marriage partner, do you want a spouse who is better than you or worse than you? Where does such a motivation come from? Heavenly Father also looks for a partner of love. That is an eternal, original, absolute desire: the desire for a superior object of love. We want to experience love on ever higher levels. Through true love, we can connect to the whole universe. The standard for all these levels of love is the family. Even the president of the United States connects with people centered on the family. If Adam had not fallen, he would have connected to the whole universe centering on the family. He would have been an unchanging subject, representing the whole universe like a king.

The president of the United States represents the whole nation. Adam and Eve would have been the king and queen of their family and eventually the king and queen of the the tribe and nation. Heavenly Father is in the subject position, and human beings are automatically in the object position. There are kings and queens on different levels, but however

PHOTO: KEN OWENS/NFP

*Individualism is a big problem. People always want to receive without investing. However, first you have to invest and then you can receive.*

large the level, they should completely fit into the formula, which is true love.

### INVESTING AND FORGETTING

True love starts with total investment and then forgetting the investment. To invest and forget means to serve others and think in a sacrificial way. The person who constantly serves other people and thinks in a sacrificial way always becomes the central figure. Do you follow? This is a most important teaching. Why is Heavenly Father the eternal subject? From the beginning of creation, He has been eternally investing and forgetting, investing and forgetting, in a sacrificial way.

If there are ten members in a family, the one who is most sacrificial, sacrificing himself ten times more than the other family members, is the central figure. To serve others and sacrifice one's self for others is our moral standard and our teaching. Because Heavenly Father is that kind of eternal subject, as His objects we should automatically have the same attitude and follow the same principle. One family member sacrifices for the others and serves them, and then that family sacrifices itself for the clan and serves the hundreds of families in the clan.

In the creation, Heavenly Father started with the mineral world, investing Himself and forgetting, until the higher level of the plant kingdom emerged. In the plant kingdom as well as the mineral kingdom, everything consists of plus and minus. Everything followed the formula.

Children are educated in kindergarten and then elementary school according to this formula of plus and minus. After they finish elementary school, they go to junior high school and high school; at every stage they meet the concept of plus and minus. When they go to the university and then pursue a doctoral course, they learn the formula of plus and minus. On that foundation every level, including the national level and worldwide level, follows the same formula of development through the reciprocal relationship between plus and minus.

If you go witnessing in your state or nation, you should be the subject of that environment. You begin in the object role and serve people, until finally you gain the subject role.

If you look at the course I have been pursuing until today, I connect with the academic realm, the political realm and the media realm, always making connections on the highest levels, by following this formula. I begin from the position of object and serve the people in that realm. Finally I gain the subject position. That is the absolute formula, the iron-clad law. I served the famous professors and scholars, and eventually they learned that the Reverend Moon is superior to them. If you follow this formula, you will become the central figure. In the academic, political and media realms, I have been continuously investing and forgetting. Even Nobel laureate academics who thought they were at the center of knowledge are as nothing in front of me.

Individualism is a big problem. People always want to receive without investing. However, first you have to invest and then you can receive. Do you understand? You know the universal formula clearly. When you enter elementary school, you have to unite with your teacher. You can then go to the next

higher level, which is junior high school. The same thing is true with high school and university. You should unite with the subject and then move up to a higher level.

By following the formula of investing and forgetting, you can develop from the individual level all the way to Heavenly Father. How much money have I invested up until today? I have kept no record of how much I invested. I forgot everything. I just invest and forget.

However, all these processes can be completely integrated within the family. All the family members should be connected, each of them existing for the sake of others. What is the motivation of all the actions in the universe? Although there are many different dimensions, they all follow the formula of true love.

What kind of people were the saints and sages? For example, Jesus Christ taught that we should love our enemy. That means to forget the wrongs and forgive the enemy. When did I decide to publish the *Washington Times*? While the court case was in progress, I was considered the enemy of the country. They brought a court case and put me in jail. However, I invested and forgot. That automatically made me the central person. This is an application of the universal formula.

### SACRIFICING FOR THE WHOLE

Look at my hand. The hand by itself has no meaning. What is the meaning of my eyes, nose, ears, and legs? They exist for me. They have no value apart from the whole. Even the nose exists for the whole. The five or six organs are for the sake of their object. What about my lips? They exist for my sake. What are my ears for? They exist for me. All the organs of my body exist for my sake. Thus we should know clearly that in all the world nothing exists for its own sake but for the sake of a higher level.

What is the starting point of the material world? What is the motivation of its existence? All material things desire to connect to human beings. What is the motivation for the existence of a molecule or atom? To reach the higher plant realm as soon as possible, to be absorbed by some subject in a higher realm.

The individual sacrifices for the sake of the family. All beings seek the higher purpose. Each being seeks to unite with a higher realm, representing God. We need to step to higher realms in order to eventually reach Heavenly Father; we go from the family, to the clan, clan to the nation, nation to the world, and from the world to Heavenly Father. This is the traditional, historical formula which all things must follow.

In relationship to the animal world, human beings occupy the position of God; human beings represent God to the animal world. Human beings are in the top position of creation. All creatures want to follow human beings. What is the motivation of the mineral realm? To become part of the plant realm. When you look at this as a vertical and horizontal process, if the horizontal realm puts pressure on the vertical aspect, it pushes the vertical aspect higher, and if the vertical aspect pushes down on the horizontal aspect it becomes wider. What does this teach us? If we sacrifice our flesh, our mind will become higher. If our mind becomes higher, our flesh cannot complain. Here we find the principle that the horizontal aspect

*Every step of development, from the lower levels to the higher levels, always took place through a love relationship. Without that we could not reach higher levels. Thus evolutionary theory is false; it is the way of thinking of a thief.*

should sacrifice for the vertical aspect; that is why we sacrifice our flesh for the sake of our mind, which is our vertical aspect.

Plants sacrifice themselves because they know that by sacrificing they become part of a higher level. The whole plant world would sacrifice itself for a small rabbit which would sacrifice itself for a tiger, because the tiger is on a higher level. Finally, the whole animal world will sacrifice itself for the sake of human beings.

Although our body does not want to sacrifice itself, it should sacrifice itself for the sake of the mind. This is why all religions teach us to sacrifice our body for the sake of our mind. However, our body never wants to sacrifice itself; therefore, we have to push our body in order to enable our mind to rise to a higher level. If our mind tries to approach Heavenly Father by itself it would take a thousand years; but if we sacrifice our body completely we can reach Heavenly Father within a second. We should know that the traditional, universal formula for development is to sacrifice oneself, invest and forget. Because this formula was lost, people have not been able to develop.

#### **THE DWELLING PLACE OF LOVE, LIFE AND LINEAGE**

What do all things want to approach? The place of love, the place where love is exchanged: our sexual organs. All things want to connect with love, life, blood lineage and conscience,

which are all linked in the place where man and woman unite: the sexual organs. This is the dwelling place of love, life, blood lineage and conscience. Every purpose dwells there. The movement of the universe is based on this formula.

As human beings, we should follow Heavenly Father's way; we should connect to the deepest part of Heavenly Father. All human beings approach the original place of love as children, as brothers and sisters, as husbands and wives, and as parents. People in all four stages of human life approach this original place of love. This is the place of sexual intercourse. This is the formula for this world's existence.

As human beings, we should go toward God. The animal world goes toward human beings and, through them, toward God. The motivation of the animal world is to reach the realm of God's love through human beings. This is the formula. If we nullify this formula, everything that exists in this world will be destroyed. This is the fundamental concept of our being.

Charles Darwin's theory of evolution was completely incorrect. He talked about the survival of the fittest and the weak ones being sacrificed for the stronger ones. People are confused because they do not know what is subject and what is object. They do not know the formula governing the subject and object relationship. They do not know which is first, concept or substance. The concept, or love, is first, followed by the substance, man and woman. There is concave and convex.

PHOTO: KEN OWENS/NFP

*True Parents (seated center) pose with the Japanese women during an International Women's Friendship Conference for World Peace in Washington, D.C.*

*Why did God create us so completely united with aspects of ourselves that we cannot even feel them? If you have a love object, you can suddenly feel love, life, blood lineage and even conscience.*

On the foundation of unity between concave and convex, love and life are established. Through the reciprocal relationship, plus and minus unite and form a unity on a higher dimension. This is the formula of development.

Take our eyes, for example. Which was first, the concept or the substance? Before the eye developed, did it know that the sun existed? It did not know, but the purpose of the eye is to look for the sun. Did the nose know there was air before it existed? No. It did not know. What is the purpose of having eyelashes? They are just like a screen. Did the eye know that things would be flying everywhere and thus it would need eyelashes? The substantial eye did not know, but the concept knew. You may think there is no meaning to having eyelashes, but before the eyelashes existed there was a vast background of knowledge that gave rise to the substance. Do you know why the eyelid blinks? Did it know there would be dust in the air? Did tear ducts develop because the eye knew there would be dust in the air? The eye did not know these things. Do you think the eye would be more beautiful and more convenient without an eyebrow? However, without the eyebrow how would the salty sweat be kept out of the eye? Why do we have lines in our forehead? They are sweat lines. Thus we know that concept existed before substance.

Did the man's sexual organ know before birth that it would go into a woman's sexual organ? [Laughter.] No. The concept was first. What is the meaning of nose hairs? [Father laughs.] For a woman to have nose hairs is a very terrible thing. The concept is first and substance is second. Do you follow? Concept is first and substance is second.

Between the amoebas and human beings are thousands and thousands of relationships. Human beings come on that foundation. Without the connection of a love relationship, no new baby can come into existence. Every step of development, from the lower levels to the higher levels, always took place through a love relationship. Without that we could not reach higher levels. Thus evolutionary theory is false; it is the way of thinking of a thief. Concept is the priority.

Can you see love? We cannot see or touch love. How do we know this? Without an object of love, we cannot know that love exists. We have love, life, blood lineage and even conscience, but because we are so completely one with them we cannot feel them. How many times do you blink your eyes? Can you calculate the number? Why don't you know? Each square centimeter is affected by air pressure, but we do not feel that pressure. If you put your hand on your breast, what do you feel? Your heartbeat. How many times does your heart beat

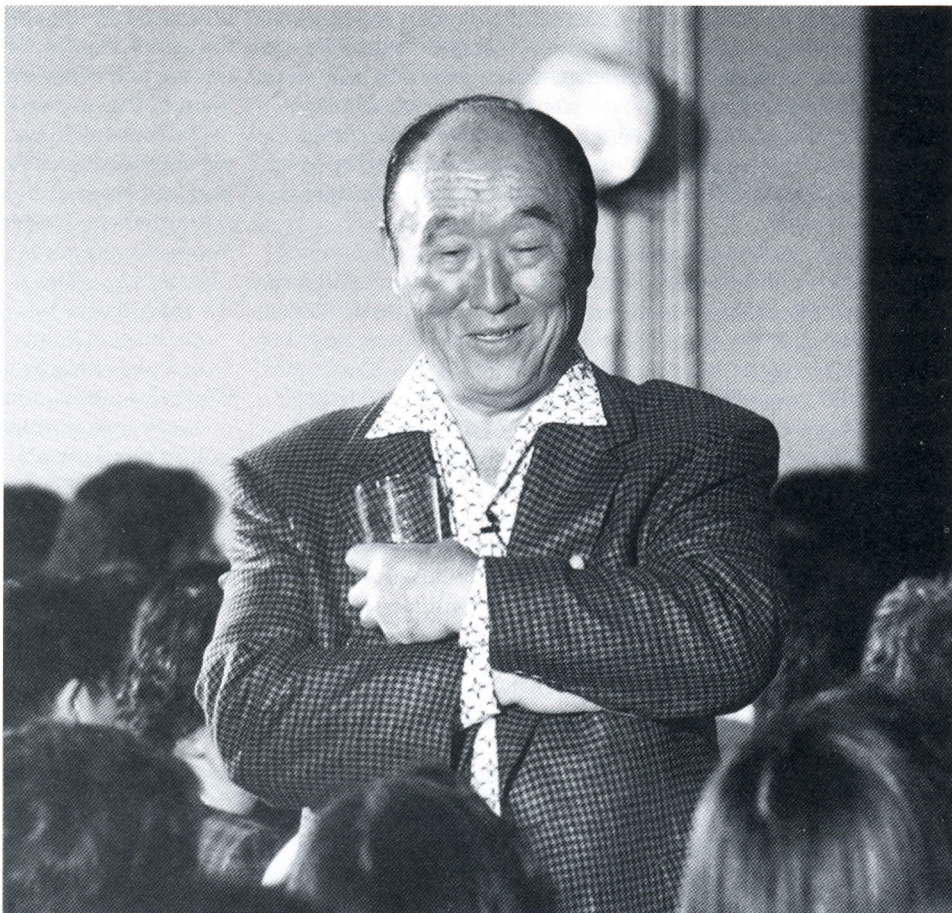

PHOTO: KEN OWENS/NFP

each day? It makes a big sound, but we do not realize it because we cannot feel it? Why? Do you put a big mask in front of your nose when you go to the bathroom? Because we are completely united with it, we do not sense the smell.

### THE ZERO POINT

Why did God create us so completely united with aspects of ourselves that we cannot even feel them? If you have a love object, you can suddenly feel love, life, blood lineage and even conscience. An object of love creates a big stimulation; it is a powerful stimulus, like an electrical shock. If we invest only thirty percent and neglect the remaining seventy percent, we cannot receive anything from the subject of love. However, if we invest a hundred percent and more, then we can feel the shock of love, through the subject of love. A hundred percent shock, all open! Unless we live a hundred percent for the sake of others, we cannot feel the love-shock.

If our mind and body are fighting against each other, how can we move? We cannot approach the zero point in such a condition. The zero point is where subject and object, plus and minus connect. Thus, you should unite your mind and body first, and then unite with your spouse. American people especially need to understand that individualism cannot produce unification. You have to warn American people to change and

*How can Eve, the mother's position, unite the archangelic and Adamic realms? If women work for the unification of the world, it will be no problem for men to unite.*

go to the opposite side. Can you do it?

This is the formula we need to learn from the sun, air, water and soil. They sacrifice themselves for the others. These four elements sacrifice themselves and serve others. For instance, if there is a small opening water will go through it. In the body, the blood penetrates the smallest openings. In a tree, the fluids rise to the top branches. Air itself follows the same formula. It invests and forgets; it gives in a sacrificial way. Even the sun works so hard, but does it take a rest? For a hundred million years it has been giving light, without stopping. The sun represents God's position. It is the life element without which no being can sustain its existence.

Is love more similar to water or to air? Both air and water flow. Does high-pressure air flow toward an area of low pressure, or does the low-pressure air flow to the high-pressure area? High-pressure air flows to the low-pressure area. Just like the sun and just like the high-pressure air, Heavenly Father invests and forgets, coming down to the low areas. Suppose water is heading down to a dirty place: will it protest going to a low place? Water and air freely flow everywhere and occupy every place. This willingness to flow is the formula of love.

Suppose a Japanese cloud said, "I hate American clouds. I do not want to be matched to an American cloud." Would that happen? Suppose a Japanese ocean said, "I do not want to circulate in an American area." Or suppose water in an American ocean protested against circulating 4,000 miles to Japan. Does that happen? Does water discriminate between developed and underdeveloped countries? Are there national borders dividing the currents? How do human beings compare to the currents of water? They create borders and discriminate against each other.

Do American sparrows and Korean sparrows chirp differently? Why do Korean men and American men use different languages? They cause damage. Who caused this? They hate each other and fight. Parents and children fight. Even the rice—or bread, for the Western world—does not want to hear such sounds. God does not dwell where there is fighting. If your mind and body are fighting, God does not dwell with you. Universal law does not permit it. We should clearly understand this concept.

### RESTORING THE FAMILY

The formula of re-creation involves reversing the positions of Cain and Abel. Because of the fall, the original blueprint was lost. Restoration means coming back to the original point, the original family unit, the original family formula of parents and children. Because God lost the family, He has been seeking the family. God comes down to the lowest part, seeking the lowest Abel in the satanic world. Satan occupies the head place in the satanic world. God has been coming down to hell. How miserable God's situation is! From the providential perspective, how amazing indemnity is!

Until today, Cain and Abel have been fighting. Abel is the right wing, and Cain is the left wing. They have been fighting. Where did this fighting start? In Adam's family. Adam and Eve were the parents and Cain and Abel were elder brother and

younger brother. Because of the fall, Adam and Eve were not true parents; therefore, the elder son and younger son began to fight. If parents are centered on true love, the elder and younger brothers will embrace. However, without parents there is no embracing power; the children fight with each other.

Thus the family level was lost. To restore this, a higher-level, national foundation was needed. Judaism developed in the Abel position and the nation of Israel was in the Cain position. They should be united as Cain and Abel. When Adam and Eve are completely united, centering on Heavenly Father, Heavenly Father can dwell there. When the mother and elder son are united, universal power operates. This is the formula of re-creation. Do you follow? When there is unity between subject and object, universal power dwells there and heavenly fortune guides them.

Why do we feel pain when we have a disease? Pain exists because of the lack of unity between subject and object. When there is no unity between husband and wife, heavenly power is chased out. Therefore, they feel pain.

Thousands and thousands of electrical bolts are operating in the universe. In electrical terms, if plus and plus are always fighting, how can they unite? If thousands and thousands of electrical bolts come down, what will happen? Will electricity gradually start to flow when there is only plus? When plus and plus unite, and minus and minus unite, then plus and minus will begin to cooperate, creating some kind of reaction.

### PROTECTING THE SUBJECT-OBJECT RELATIONSHIP

Before marriage, sisters live together and brothers live together. Before marriage, sisters are friends with sisters and brothers are friends with brothers. They meet every day, talk together, and sleep in the same place together. However, after marriage they focus on their spouse. Once the subject is decided, no other subjects are allowed. The heavenly formula guards the unity between plus and minus. Before a reciprocal relationship is made with an object, it is permissible to connect with others. However, once the reciprocal relationship is established, no other subject or object is permitted. You tell them to find their own spouse. Universal power protects the partnership; it is a helping force. When husband and wife are united, other influences are kicked out. If you see some handsome man, are you interested in him or not? [No! Everyone laughs.] This is the formula for settlement. Is it temporary or eternal? Do you want temporary love or eternal love? [Eternal love!]

We know that Heavenly Father always invests and forgets and that He protects the subject and object relationships. This is an eternal partnership. True love means eternally to invest and forget. On that foundation, the world of eternal peace, happiness and love can be established. On the foundation of our own unity we can connect with our environment. When the horizontal base is established, the vertical dimension operates, creating a place where the children can settle. Subject and object, plus and minus need to be united. When the central point of unity is established, horizontal expansion to the four corners of the earth is possible. This is the formula for the environment of reciprocal relationships between sub-

*The central concept is a family. On this foundation, people can unite and their positions can be reversed. We must follow the reverse course back to the original position.*

ject and object.

Because of the fall the elder son became the younger son, and the younger son became the elder son. Restoration means to take the reverse course and return to the original position. God could connect only to the younger son, while everything in the higher position was connected to Satan. Everyone in the family, and even those on the national level, persecutes the people in the lowest position, those who are in the Abel position. Because of this persecution, those in the lower position automatically rise higher and higher. Thus the younger brother becomes the elder brother.

Why does God's providence of restoration take such an incredibly long time? Because the elder son always persecutes and tries to assassinate the younger son. Finally, he is conscience-stricken; then he apologizes and gives everything to the younger brother.

## RESOLVING CONFLICTS

Jesus Christ came on the national level. He was crucified between the right-hand thief and the left-hand thief. Because of Jesus, they fought each other; Judaism and Israel fought each other. However, this did not fit into the formula course.

The fighting in Adam's time was on the family level, while the fighting in Jesus' time was on the national level, and the fighting at the time of the Lord of the Second Advent is on the worldwide level. Right wing and left wing are represented by the democratic world and the communist world. Father is the third Adam, embracing the right and the left wing. How can they be unified? At Jesus' time they failed to unite. True Parents have to digest both communism and the democratic world. In Adam's time there was a family-level failure, while in Jesus' time there was a national-level failure. Both of these failures should now be indemnified on a worldwide level by Father. As the True Parent and the third Adam, I will completely digest them and embrace them, without fighting.

The worldwide level communist leader, Gorbachev, and the national level communist leader, Kim Il Sung, should be absorbed by True Parents. Because True Parents unified the plus, or democratic world, and the minus, or communist world, this means that what was originally lost in the family will return on the national level. Because of that, I declared "True Parents and the Completed Testament Age." Why have Cain and Abel, or left wing and right wing, emerged in history? People do not know. Neither the communist world nor the democratic world knows what direction they should take.

We should know our historical mission. I am using the Eve nation, Japan, to embrace the archangel nation, America. That is the process I am using now. Fallen Eve separated from Adam's world. How can Eve, the mother's position, unite the archangelic and Adamic realms? If women work for the unification of the world, it will be no problem for men to unite. The women's age is coming. In America, women are like queens, and men are like servants. The man stops the car, gets out, and opens the door for the woman, exactly like a servant. Such a standard of action cannot continue forever. Only until the year 2000. Only another six years.

When the real king and real queen appear, people will follow them. People will have to follow the real king. The year 2000 will mark the beginning of that age.

You have to come to the zero point. You have to cancel the attitudes of this world and reach the zero point. You have to connect with the true subject, True Parents, and heavenly love; then you and your partner can create the realm of a unified couple.

The course of restoration is seeking this original ideal. Until today, the history of restoration has focused on restoring the positions of Cain and Abel. Cain tries to kill Abel three times, but then Cain is conscience-stricken. Feeling sorry, he will give the elder sonship to the younger brother, Abel. Because of this process, the history of restoration takes a long time. Because they could not bear Heavenly Father's direct blood lineage, they sacrificed their blood lineage.

God has no concept of enemy. God's way is always the loving way, not the hating way. Finally, even Satan will obey me and naturally surrender to me. This is the original idea of creation. To unify the right-hand side, I came to America and worked to unify with every realm, including the Congress and the United Nations. By unifying the right wing and the left wing, I laid the foundation to restore everything and safely settle True Parents and the Completed Testament age. Thousands of years ago Heavenly Father lost the original position. Through the indemnity course, Cain becomes the younger brother and Abel becomes the elder brother, regaining and restoring the original position.

The crossing point is the point of complete negation, a zero. The whole satanic world must be nullified. That is why religions have always taught people to leave their home town. Traditional religions could not teach people to return to their home town. For the first time in thousands of years of human history, the hometown providence is possible. Unification Church members have not understood how important is the hometown providence.

Adam and Eve were chased out of the Garden of Eden. In the process of restoration, we will come back to the original position of Adam and Eve. Because of false parents and false marriages, the process must be reversed. Because of false parents, people have been destined to go to hell. But with True Parents, the process is reversed and we can go to heaven. This is the final goal sought by all religions; even Heavenly Father has been seeking this original standard. Thus, the central concept is a family. On this foundation, people can unite and their positions can be reversed; for example, the children's position becomes a minus and the mother's position becomes a bigger plus. We must follow the reverse course back to the original position.

The mother's position is the bride religion; this has been the role of Christianity in history. Christianity becomes a minus and seeks the new bridegroom, the Messiah. Thus the mother and children, centering on the bride, return to the original Adam. Then we can kick out Satan. The Messiah comes down from heaven. The heavenly bridegroom should seek the bride and children. When mother and children unite, they are in the minus position in relationship to the bridegroom, who is the bigger plus. This is the formula of development. Then the restoration

*When Jesus Christ was seventeen years old, he told Mary whom he should marry. Jesus Christ spoke strongly about the necessity for this marriage, no matter what sacrifices might have to be made, but Mary could not accept it.*

PHOTO: KEN OWENS/NFP

is finished.

Through the unity between Cain and Abel, the birthright of the elder son is restored. On this foundation parents are restored, and if Heavenly Father dwells there, the kingship or heavenly sovereignty is restored. Finally the fighting between brothers and sisters is solved.

### **WHAT FATHER TAUGHT THE JAPANESE WOMEN**

Why has American democracy been declining? Free sex, homosexuality and AIDS have spread all over the country. People must desperately follow me; otherwise there is no hope. Why am I doing things this way? The archangel caused Eve to fall, so Eve should restore the archangel to the original position. Because of this providential background, even the famous leaders are following Eve. When high-level men meet Japanese women, they melt. The fallen archangel melted Eve, but now Eve is melting the archangelic world.

Until today no one knew the secret of the heavenly formula course. Because of that no one can deny me. This is the process of restoration, but I have been giving women more insight. I have been teaching Japanese women the nature of women's role in God's providence. You should know the content of what I have been teaching the Japanese women.

Centering on Heavenly Father, there have been two kinds of women after the fall: the original or legal wife, and the mistress. From the two kinds of wives, two kinds of children have emerged. Originally, there should have been only one type of children and one type of wife. One is the elder sister and the other is the younger sister, and their positions coincide with Cain's position and Abel's position.

How could fallen Eve be restored at the time of Jacob? Jacob suffered for seven years to marry Rachel. Why has the history of restoration been so complicated? The things that happened

to Eve should have been restored in the case of Jacob and Rachel. However, Jacob's family went through the same course. Why did Laban send Leah, the elder sister, to Jacob's tent on his wedding night? To restore the original position, Jacob had to love the enemy, the elder sister. In Jacob's family, the elder sister, Leah, should have taken the position of younger sister and the younger sister, Rachel, should have taken the position of elder sister. That is how restoration would have been accomplished. However, Leah and the servant girls claimed the heavenly lineage for their side. These three women bore ten children for Satan's side. The original, heavenly wife, Rachel, was completely denied. Leah and the concubines had ten children, while Rachel had only two. Originally, Cain's wife and children were supposed to follow Abel's wife and children. Abel's plus and minus (his wife and children) were supposed to be united on the foundation of Cain's plus and minus

(his wife and children). That was the formula of restoration. However, everything was reversed.

Along these lines, the kingdom was divided into a northern part, Israel, and a southern part, Judah. The dynasties fought against each other. All twelve sons and tribes of Israel should have united to welcome the Messiah. Otherwise there was no foundation to receive the Messiah. Plus and minus should be united centering on the Messiah.

Before the Lord came, Elijah was chosen by Heavenly Father to help the northern and southern kingdoms unite. Finally, on Mount Carmel, there was a showdown between the 850 false prophets and Elijah to determine who was the true God. All morning the other prophets prayed, but nothing happened. Finally, Elijah placed water on the altar, and Heavenly Father worked. However, the people could not accept Elijah as a heavenly prophet, and they tried to assassinate him. Finally, he escaped and prayed, "Heavenly Father, please take my life." Heavenly Father said, "Do not worry. I have been preparing things; 7,000 people did not worship the false gods." If they united with Elijah, the Messiah would have been welcomed. Because of the failure at Elijah's time, however, the restored Elijah had to return before Jesus could appear. Because Elijah ascended into heaven, the people expected Elijah to come down from heaven.

That was the time of John the Baptist. Among the tribes of Israel, if there were 7,000 prepared people who could welcome Jesus, the heavenly providence would have been completely fulfilled. If John the Baptist and 7,000 followers had united with Jesus, Jesus Christ could have restored all the people of Israel centering on the family of John the Baptist and Jesus Christ. However, everything failed.

Who was the father of Jesus Christ? [Zachariah.] Zachariah. This followed the same formula of legal wife and mistress. The relationship between Elizabeth and Mary was just like that

*The woman's responsibility is the mother's responsibility. Centering on the mother, Cain and Abel can unite with the true Adam. When the mother embraces Cain and Abel, a worldwide brotherhood and sisterhood is created.*

---

between Leah and Rachel. Zachariah's family should have restored Jacob's family; they had exactly the same course. Elizabeth should have restored Leah's position and then introduced Mary to Zachariah. The result of the relationship between Zachariah and Mary was the birth of Jesus Christ. With Mary and Jesus united as plus and minus, and Elizabeth and John the Baptist united as plus and minus, a greater plus and minus would have been created by the unity between the two wives and two sons. If this process of unity had taken place, all of history would have been completely restored. Everything would have been solved if Jesus Christ had been safely married.

Why could Jesus Christ not get married even by the age of 33? Jesus Christ is the true Adam, isn't he? As the completed Adam, he was connected to the true love of God. If one such man and woman are united in marriage, they would have the position of royalty on the national level. If this marriage had been completed, everything would have been accomplished.

Why couldn't Jesus get married even by the age of 33? Restoration is accomplished through indemnity. The fall involved a relationship between the archangel, Eve and Adam, culminating in the birth of Cain and Abel. Lucifer's betrayal involved taking away Adam's sister, Eve. Jesus' position was Adam's position, and John the Baptist's position was the archangelic position. All these historical events led up to John the Baptist's younger sister being in the position to become Jesus' wife. With Jesus destined to be in the elder son's position, John the Baptist's younger sister would have become Jesus' wife and all of history would have been restored.

When Jesus Christ was seventeen years old, he told Mary whom he should marry. Jesus Christ spoke strongly about the necessity for this marriage, no matter what sacrifices might need to be made, but Mary could not accept it. Mary went through such a severe course after her relationship with Zachariah. She experienced much persecution from the environment. If this union had been publicized, people would have stoned her to death. If Joseph had not declared that her baby was his son, Jesus and Mary would have been stoned to death. Joseph was the savior of Mary and Jesus Christ. If Mary had confessed who her child's father was, there would have been a problem. Thus Jesus and John the Baptist's sister had the same father, but different mothers. They were half-brother and sister. John the Baptist knew very well that Jesus Christ was an illegitimate child. When John the Baptist received the revelation that Jesus was God's beloved son, he could not accept that an illegitimate person was the Messiah. Under these circumstances, for Jesus to marry John the Baptist's younger sister was unacceptable. Although they had different mothers, they were both children of Zachariah. How could people accept such an incestuous relationship?

### **THE NEED FOR A TRUE CENTER**

Why have there been so many miserable incestuous relationships in America? The Lord of the Second Advent clarifies all these situations. The Lord of the Second Advent chases out such situations; they have no center; they lead to hell. The free world has no center. The Christian world has no center. I

am turning them back toward heaven.

Because they chased out the central figure, they have been declining for the past forty years. People have engaged in free sex. Sexual relationships between man and man and between woman and woman follow the archangelic way of life, not the heavenly way of life. At the end of World War II Great Britain, America and France were in Abel's position, and Japan, Germany and Italy were in Cain's position. If Sung Jin Nim's mother, who was in the bride position, had been united with me at that time, the heavenly providence would have been completed forty years ago. The central family, central tribe and central nation would have been united around Korea as the core of parental unification. Centering on Eve's position, all nations could have surrounded that country, creating an atmosphere of unification.

However, the same thing happened as in the Garden of Eden, and I was chased out. The Christian world did not welcome the second advent, so I was chased out into the wilderness. The family was lost, and only Adam remained. The satanic realm chased God out.

How can the Lord of the Second Advent make the family, tribe, nation and world a second time, culminating in the year 2000? At that time I will be eighty years old, the same age as Moses.

Centering on North America in the plus position, the Unification Church is plus and Christianity is minus. On the foundation of this reciprocal relationship the South American countries, which are primarily Catholic, are Cain and North America is Abel. The two continents have been fighting, as hostile, enemy nations. The Protestant and Catholic civilizations should be united.

Reverend Jerry Falwell is a leading representative. He tried to revive America centering on Father. The archangel should unite with Eve, creating a sisterhood centering on Christianity that can unite with True Parents. Centering on Father, Cain and Abel can return to their original position, and America will take the plus position. In the reversal process, enemy countries become brother countries.

North America should go down to South America and unite with them. The united North and South America will become a big plus and Europe, centering on Germany, will automatically be in the position of a big minus to them. Martin Luther tried to unify Protestants and Catholics. When Protestants and Catholics are united in America, they will automatically be united in Europe.

The united Americas and Europe will become a still bigger plus, and Asia will automatically be in a minus position to them. Then everything is finished. There will be a new and restored United Nations. In Asia, north and south, Cain and Abel will all be completely united centering on True Parents. This is the path of restoration. Through this course we will restore Roman Catholicism and the Roman Empire. Finally, even Adam's course will be completely restored through this process.

### **EVE'S MISSION**

Because of Eve's fall the family was lost. On the worldwide level, the family will be restored, centering on Eve. That

*On the foundation of Tamar, Heavenly Father was able to have direct dominion freely. The chosen nation started from this point. This was the historic start of God's ability to control freely beginning at the environment of the womb.*

is why I have been advancing the worldwide providence centering on the restoration of women. Therefore, the Japanese women came here to establish sisterhood bonds with women from America, their former enemy nation. Korea and Japan have been enemy nations, but through the sisterhood bonds everything can be solved. Therefore, should we stop now or should we continue? [Continue.]

I know everything that we need. We cannot deny that we are following the same historical formula. Who should be responsible for this? Each of us. Abel should take the responsibility. We should be responsible for that. You should be responsible from your head down to your feet.

Nora, are you united with Japanese women? If you do not speak Japanese and the women do not speak English, what should you do? Will the archangel follow Eve or Eve follow the archangel? You should speak Japanese.

The woman's responsibility is the mother's responsibility. Women have a difficult mission. Western civilization has been in the plus position, and the Oriental world has been in the minus position. How can those positions be exchanged? Only by me.

Now you understand the role of women on the front line. Centering on the mother, Cain and Abel can unite with the true Adam. When the mother embraces Cain and Abel, a worldwide brotherhood and sisterhood is created. This is the women's mission.

What is the individual role of women? Because Eve fell, the elder son, Adam, was chased out and Heavenly Father was chased out. Because of the fall, Eve lost the elder son and the father. According to the Old Testament teachings, the law

of restitution is an eye for an eye and a tooth for a tooth. Because of satanic Eve's actions, God uses heavenly Eve to restore everything.

### REBECCA'S MISSION

First, Rebecca helped Jacob to prevail over the elder son and she helped her younger son restore the elder sonship. The second son had to gain the birthright, or the elder sonship. Centering on Rebecca, Jacob, the second son, was restored as the elder son. What kind of mother would let her younger son take ownership of everything that belonged to the elder son? For the second son, Jacob, to get the blessing, Isaac and Esau were subjugated. This is the process of restoration. Thousands and thousands of years ago, Heavenly Father started the history of restoration.

After fighting with Laban for 21 years, Jacob headed back to his home town beyond the Jabbok River. Jacob was sleeping in the desert near the Jabbok River when suddenly the archangel came and asked, "Why are you sleeping here? Wake up!" They began to fight. They fought all night. When it was morning the angel begged to be released. "Unless you bless me I will not let you go," Jacob replied. The archangel said that Jacob had won the victory not over men but over God, and he gave him the name Israel.

Jacob was in Adam's position. His victory meant that Adam dominated the archangel and restored the Garden of Eden. The invisible archangel was completely subjugated by Jacob; then the substantial archangel, Esau, could be automatically subjugated. Thus Jacob got the birthright and could go back to the kingdom of heaven on earth.

### TAMAR'S MISSION

Jacob got the victory over the invisible archangel and the substantial archangel, but still fallen world had started from Eve's womb. The period of life up until forty years of age remained to be restored. In place of Rebecca, Tamar became the central figure. Tamar prevailed against her husband and father-in-law. Because Tamar knew how precious the blood lineage was, she risked her life to preserve this blood lineage. Tamar's husband had died without fathering a child. In the Israeli tradition, if a husband died without fathering a boy, his younger brother should take the widow as a wife. But the second son avoided his role. Tamar waited for the third son, but he was still young. Women have a special time period in which they can have a baby. Although it was difficult, she decided to approach

*The third generation of True Family sing "Twinkle, Twinkle, Little Star" for Jin Sung Nim's and Shin Won Nim's joint birthday celebration. Left to right: Shin Ok Nim, Shin Eh Nim, Shin Sun Nim, Shin Yeon Nim.*

*On the worldwide level, North America is in the plus position and South America is in the minus position; if they unite centering on me, a worldwide foundation will emerge.*

PHOTO: KEN OWENS/NFP

ple went through difficulties: they were enslaved, they were captured by other nations. They had to cleanse the stained blood lineage.

### **MARY'S MISSION**

Mary then came to restore the position of Abel on the national level. On the national level, Mary prevailed against the elder son, her husband Joseph, and the father of Joseph. Joseph's parents were dreaming beautiful dreams about the children that their son's future wife would bear, but she completely destroyed this dream by becoming pregnant before marriage. They heard that Mary had become pregnant. Joseph was in Adam's position. Eve had betrayed Adam and went to hell. Now Adam had to save Eve (Mary) and restore her.

If Joseph had said the baby was not his, Mary and Jesus would have had to die. He saved Mary and Jesus. That was

her father-in-law, Judah. Thus Tamar dressed as a prostitute.

These are not my words. This is the historical background. The satanic root must be removed.

In Rebecca's case, her two children fought within the womb. She prayed to God to understand why there was such a struggle. God told her that two nations were fighting within her womb; the bigger nation would become weak and the smaller one would become strong.

Tamar also prayed to God and got the same answer: the stronger would become weak and the weaker would become strong. The midwife put a red ribbon on the hand of the baby whose hand came out first. That was Zerah. Then he pulled in his hand. Therefore, within the mother's womb, the blood lineage was changed, and the second son became the elder son.

Do you understand? This was the first time in human history that the elder son and younger son changed positions within the womb. This was an ultra victory course, an internal victory. On the foundation of Tamar, Heavenly Father was able to have direct dominion freely.

The chosen nation started from this point. It was an astonishing thing that chosen people could emerge on earth. This was the historic start of God's ability to freely control, beginning at the environment of the womb. The historic, victorious foundation started from this point. From this eternal change of blood lineage came the Israelite nation. On this foundation the Messiah could come.

It took 2,000 years for the Messiah to come. Because the satanic world had already developed to the national level, the heavenly side should also reach the national level. The Cain-type foundation in the satanic world had reached the national level, but God's side did not have that national base. It took 2,000 years to reach that level. For 2,000 years the Israelite peo-

ple went through difficulties: they were enslaved, they were captured by other nations. They had to cleanse the stained blood lineage. From the family level to the national and worldwide levels, all historic conditions were indemnified at this time. Why did such a thing happen? Because Eve was tempted by the archangel, she had to restore the archangel. Otherwise, there was no way for him to return to his original position. Originally, Mary should have restored the national-level mission, but she failed.

### **THE FAILURE OF CHRISTIANITY**

After World War II, Great Britain was in the mother's role, in the position of Eve; America was in Abel's position and France in Cain's position. England represented the Christian civilization as well as the Holy Spirit position; it was the center of the spiritual civilization of Christianity. Forty days after Jesus' resurrection, the Holy Spirit descended to earth to restore the physical world. Because the Christian civilization did not accept the Lord of the Second Advent after World War II, the time for restoration came around again forty years later.

On Cain's side were Japan, Germany and Italy. Originally, the Lord of the Second Advent was to bring a spiritual civilization to Japan, Germany and Italy, representing the material civilization. These two should have united, as plus and minus, and accepted the Lord of the Second Advent. The unified foundation of spiritual civilization and physical civilization would become the minus position in relation to Heavenly Father and True Parents, as the big plus. If they had united, a peaceful, unified world would have developed.

However, Christianity did not accept me. The peaceful, unified world was lost. Heavenly Father and I were chased out into the wilderness after World War II. Every foundation was lost. Just as in the Garden of Eden, the heavenly Adam

*Within the satanic realm there is fighting, but I am working to horizontally unify 160 nations. We need to unify the horizontal world, restore the history of fighting, pay indemnity and connect to True Parents.*

PHOTO: KEN OWENS/NFP

and Heavenly Father were chased out. Korea was divided into north and south; Kim Il Sung ruled North Korea as the false parent, while True Parents were in South Korea. The two nations fought each other, and the north attacked the south.

### CREATING A NATIONAL-LEVEL FOUNDATION

Seventy days after the fortieth anniversary of the founding of the Unification Church, Kim Il Sung died. Seventy days after I declared Godism and heavenly thought, Gorbachev and the Soviet empire declined. Now Kim Il Sung is gone, and Gorbachev is my younger brother. This means that kingship can be restored. Without me, it is impossible to unify North and South Korea. I have been working for forty years to restore the situation that existed at the end of World War II. I have been working through Japan, America and Germany to indemnify those lost years. Now we can make a new, heavenly, model nation. Within the Korean peninsula, as I become the plus and the Korean people become the minus, the fatherland can be unified; North and South Korea will be united. On the worldwide level, North America is in the plus position and South America is in the minus position; if they unite centering on me, a worldwide foundation will emerge. Because of this we desperately need to cooperate centering on South America.

Among Japan, America and Germany, America is in the Abel position and Germany is in the Cain position in relationship to the new bride nation. Centering on Mother, America and Germany are uniting and moving toward Japan. Taking the reversal course, Cain and Abel must unite through the mother, Japan. Centering on the U.S. Congress and the whole United

Nations, unity can be achieved. This becomes the horizontal foundation which can be raised up vertically. The archangel caused Eve to fall; in the reversal course, Eve should restore the archangel.

Because Mother does not have the national-level foundation, I am sending out 1,600 Japanese women. When Mother came to Japan for her speaking tour, she spoke to the Japanese Diet. The American Congress and Japanese Diet could connect as Cain and Abel to the mother and, through her, return to the father. Because of that foundation, she could connect to the Korean congress. On this foundation, the second generation people in both north and south can be united, and the unification of the Korean peninsula will be completed. Within the Korean peninsula, four factions have been fighting: the pro-Japanese, pro-Chinese, pro-Russian and pro-American. The second generation is completely different; when they completely unite with True Parents, the peninsula can be unified. When Mother spoke on forty university campuses, the leftist student groups completely

united with CARP, enabling CARP to restore the elder sonship centering on Mother. Now all the leftist students in Korea are greatly influenced by CARP. South Korean students, in the plus position, and North Korean students, in the minus position, are unifying to hold the Asian rally I am promoting.

Mother's role centers on the Women's Federation for World Peace. When CARP is completely united with her, there will be no more fighting with communists. Now is the time for the unification of the Korean peninsula. The vertical foundation of 160 should be connected horizontally to 160 nations. Within the satanic realm there is fighting, but I am working to horizontally unify 160 nations. How can we help underdeveloped countries? We need to unify the horizontal world, restore the history of fighting, pay indemnity and connect to True Parents. Shall we do it?

In South America, Uruguay is in the plus position and Paraguay is in the minus position. On this foundation Brazil and Argentina can also completely unite as plus and minus. When these two plusses and minuses unite, all of South America can unite, creating a God centered foundation. That is a special site for God's providence. I do not want America, Brazil or the European realm. I do not want some high-level satanic country. Instead, I want to build up the lowest country. The time for highly-developed countries with grand buildings has passed. Pride and arrogance destroys everything. I was in the lowest position, but I always make bigger and bigger plans. I am just in a servant position. We must go over the satanic world.

You need to know that the formula for restoration starts with the family. Re-creation follows the same formula. ■

# Instructions

Translator: Hideo Oyamada

## I. NEW START OF TRUE ANCESTOR AND TRUE NATION

- A. Resolve the resentments of the fallen family.
- B. Indemnify the blessed family.
- C. Go toward the perfected family.

In this world there are three kinds of families: fallen families, blessed families and perfected families. Blessed families have not yet reached the completion level. Because of that, I gave the Family Pledge and the Family Federation for Unification and World Peace.

1. *Establish a new ancestor and a new country. We should be the new first ancestors.*
2. *Inherit True Parents' tradition.*
3. *Unify mind and body, unify husband and wife, and unify parents and children.*  
The family is the original unit. On that foundation we unify the family, the nation, and the world. The family is the fundamental unit.
4. *Centering on the Family Pledge, we can complete the family.*
5. *Establish elder sonship, parenthood and kingship.*
6. *Establish a new heaven and earth and a new model nation.*
7. *Establish a new culture, the unified culture of the new country*

## II. TRUE PARENTS' VICTORIOUS REALM AND THE UNIFICATION OF THE WORLD'S NATIONS

- A. Federation for World Peace (FWP)
- B. Inter-Religious Federation for World Peace (IRFWP)
- C. Women's Federation for World Peace (WFWP)
- D. World Collegiate Association for Research of the Principle (World CARP)
- E. Youth Federation for World Peace

I am working to unify the divided nations of the world. Centering on Mother, mind and body should be united. The Federation for World Peace is the extension of the body, and the Inter-Religious Federation for World Peace is the extension of the mind. Because of the human fall, mind and body have been divided. How can they be united on the worldwide level? Mother and True Parents are in the plus position in relation to the worldwide mind (IRFWP) and the worldwide body (FWP), which together stand in the minus position to True Parents.

Mother is represented on the individual level, the family level, the national level, the worldwide level, cosmic level and Heavenly Father. These six stages center on Mother. All mothers are extensions of Mother. Horizontally, high school students are plus, or Abel, and college students are minus, or Cain. Because the younger children are closer to Mother, they have the plus position. All eight stages of plus and minus should unite centering on Mother; eight levels of children should be completely united in the minus position to Mother. [Father writes on the blackboard.] The Youth Federation for World Peace is in the

Cain position, while high school and college students are in the Abel position; they should form vertical and horizontal unity centering on Mother. The big plus position is religion, represented by the IRFWP, and finally the FWP.

All five organizations will integrate into a new international organization. Until today the United Nations has represented only the political realm. Why do True Parents need to focus on unifying the United Nations? Because of the fall, Eve's mind and body were separated and there was a division between older children and younger children. Thus, in the worldwide providence, everything will be restored centering on Mother. Through Mother's complete unity with Father and Father's complete unity with Heavenly Father, everything that was lost in the Garden of Eden will be restored. The world is the extension of the family. High school and college students, centering on Mother, will form a big plus in relationship to the big minus formed by the IRFWP and FWP. Centering on Mother mind and body must be completely united, and on that foundation Mother goes to unite with Father; then all children, young and old, will all be completely unified, resulting in the unification of the whole world. That is the mission of the blessed family.

Why am I planning a new model nation? That will be the model nation which the whole world will follow. Because the family fell in the Garden of Eden, we will restore everything through the family. The Family will connect to the eight stages that were lost. Through this we can restore every stage of the historical foundation.

Until today the United Nations has only represented the body; it does not represent the mind, the mothers, the students, or the youth. Centering on mother is equivalent to WFWP. Cain and Abel on all eight levels need to connect to Mother. Centering on Mother, all mothers should connect to high school and college students. They are Abel, and other youth are Cain. Through mothers they connect to Mother and then to Father and Heavenly Father. In this way, we can unite the world.

Because of Eve's fall, mind and body were separated, children were separated, and everything was separated. To restore everything centering on the family, especially the mother, everything needs to turn around 180 degrees and come back to the original point.

The standard or model nation needs to be created. In my plan Paraguay and Uruguay will harmonize vertically, while Brazil and Argentina will harmonize horizontally as left and right. Centering on these four nations, a new model will be created. In Uruguay we have a convention center, hotel and bank. Centering on Uruguay, the hotel, bank and convention center can easily establish branches within all four nations. Centering on these four nations, it will be easy to expand to the 32 nations of South America. Then North America as plus and South America as minus can easily be united. Until today the North American Protestant civilization and the Latin American Catholic civilization have been fighting each other. However, they need to stop fighting, reconcile with each other, and form one harmonized America. Until today European Protes-

REVEREND SUN MYUNG MOON  
 FEBRUARY 7, 1995  
 WASHINGTON, D.C.

tants and Catholics have been fighting. Although they have the common base of Christianity, it is very difficult to unite Catholicism and Protestantism. I am making a foundation and centering on South and North America which can become the formula for the unification of all Europe.

God's original plan was for the Roman Empire, centering on Christianity, to guide the world. But the Roman Empire centered on itself and used Christianity. That was a big problem. They should have sacrificed themselves centering on the Christian civilization and dedicated themselves to living for the world, but that did not work at the time. All the Israelite people, centering on Judaism, should have sacrificed themselves for the sake of world; that was God's plan. But the Israelite people could not do that. They have the same role as Abel. Abel is the center of the family, but Abel should sacrifice himself for the family and the family should sacrifice itself for the world.

We should prepare for a big transition. Because of that I established a sisterhood relationship between America and Japan. Later there will be a Men's Federation for World Peace, which will establish brotherhood relationships. The World CARP and YFWP will do the same.

### III. BIG TRANSITION PERIOD

#### A. Transition period of blood lineage.

Because a woman fell, the blood lineage will be reversed centering on women and Mother.

#### B. Transition period of ownership.

God wanted to give the ownership to Adam and Eve but they lost it. Centering on Eve everything must be regained and brought back to the father's side. That is the big transition period of ownership.

#### C. Transition period of heartistic realm.

In the heartistic realm three stages are especially important: the individual, family and tribe. To restore these three stages of the heartistic realm we should do tribal messiah work and and restore 160 families.

#### D. Registration in the heavenly kingdom on earth.

Once we have restored the ownership, blood lineage and heartistic realm we have the foundation to register as citizens of the Kingdom of Heaven on earth.

#### E. Transition to the fatherland of the unified world.

That is our new model nation.

#### F. The Kingdom of Heaven on earth and the Kingdom of Heaven in heaven.

On the foundation of the unified Kingdom of Heaven on earth and the Kingdom of Heaven in heaven we can transfer to God's side. After we make a foundation on earth and the foundation in heaven, we can transfer to God's side. This is the only way we can register in the new Kingdom of Heaven. The completion of ideal love is the turning point of perfection and liberation. Perfection of the ideal and complete liberation through true love.

[Mr. Oyamada and Father had difficulty trying to translate this concept. Mr. Oyamada said, "You should learn Korean."]

Even Heavenly Father and True Parents have not been able to unite one hundred percent centering on God's ideal, because of the fallen world. The fallen world must be completely nullified in order for us to transfer to God's side. On that foundation Heavenly Father and True Parents will become completely united.

#### G. On the foundation of the perfection of the ideal of love, Heavenly Father and True Parents can transfer to the heavenly side.

That is a big title. It means the construction of a new system and a new order. What does this mean? Human beings and all creation must be united. Human beings are in the plus position, and all things are in the minus position. Their relationship should be like that of a unified mind and body. Our mind represents heaven and our body representing all things. In restoration history, mind and body have been divided; the mind has been on one side and the body on the other. However, from now on, everything should be united, like mind and body, and be restored back to God. People should unite their mind and body, and their activities, such as witnessing and fundraising, should harmonize. Our care for material things is represented by fundraising and our care for spiritual things is represented by witnessing. In heaven we will strengthen both our mind and our body.

Then the whole world will become just like one nation or one family, centering on True Parents and Heavenly Father. Within that nation there are men and women. Both men and women belong to the spiritual world and the physical world. The mind is connected to the spiritual world and the body is connected to the physical world. Both men and women need to develop mind and body unity. Do you follow this?

The nation is automatically the extension of the family. Because of that, we desperately need the family and the nation. Because of that, we should invest sacrificially for the nation and for the world. All families and all nations should work to establish a new model nation. This is our direction. The individual lives for the family, the family lives for the nation, and the nation lives for the world. We should invest and forget, always sacrificing ourselves for the higher dimension. What kind of people can be central figures? Those who invest more and forget more. From now on, we will keep records of the amount of money people dedicate each month to create this new nation. That will be our heavenly tradition, showing our filial piety to ten generations of ancestors, investing and forgetting as we sacrifice for the heavenly kingdom on earth. This is the kind of system we should construct.

#### 1. Centering on the family, we need professional education.

First, we made some physical or material foundation. From now on we witness to restore people from the satanic world to the heavenly nation. That is the 1-1-1 formula: one person per member per month. If we restore one person per member per month for seven

years, that makes 84 people. The 84 people include the 12 disciples of Jesus Christ and the 72 elders. That is the foundation to connect the tribal level to the worldwide level. We should pay indemnity for the failure of Jesus' course; that is the meaning of the 1-1-1 formula. If we cannot do this we should die. How do you feel about that? We absolutely need to fulfill our mission of tribal messiah. I asked Reverend Kwak to make a form that can be distributed worldwide; we should develop materials and make certificates. How much we contribute or dedicate to the heavenly world will set the tradition for the next six generations.

4. *A new international foundation.*

We should establish a new system that transcends national borders. Within the heavenly kingdom white, yellow and black people should live with no racial discrimination. No discrimination should be allowed in the heavenly civilization.

5. *We should prepare leaders who can educate the whole society in each nation.*

Social educators and instructors are needed. Centering on the church, we will educate leaders to serve the people of each nation.

What is the position of the Unification Church in relationship to the Family Federation for Unification and World Peace. In the formula of restoration, one side is plus and the other side is minus. The Family Federation is plus and in the subject position, while the Unification Church is in the minus position. So the Unification Church just follows the Family Federation. The roles of subject and object had not been established in the past, but this should be clear from now on.

Twice a month, on the first and fifteenth days, each family should have a pledge service and hold a family meeting. As members of the Family Federation you have a firm responsibility to educate people. Do not give your own speech. Read the Divine Principle book and the books of Father's words. Teach your relatives what True Parents have done. That is the formula course. We have many materials. Show the videotapes of the ceremonies; show the videotapes of what True Parents have done.

Each blessed family should have the books of my sermons and all current materials. The Family Federation should prepare them and make them available. I instructed Reverend Kwak to collect all information and make a report on what is going on. We should not cease our efforts. We should continue to work hard. We should make living materials, not dead ones.

Until today we have not had systematic training. True Parents have shown the tradition and set the standard. You can succeed horizontally by doing what True Parents have done. You have the truth that True Parents have given you—not your own. Deliver this truth to the world. Not to do so is a very big crime, a big sin.

As tribal messiahs you should be responsible for all the families and relatives. Later you will be national-level messiahs. As a messiah you must take care of everything that is happening in your nation and be responsible for it. We will organize people as family messiahs, tribal-level messiahs, national-level messiahs and worldwide-level messiah. As messiahs you should always compare yourselves to Father, the worldwide Messiah, and the hard work he has been doing until now. As a family messiah, are you working harder than me? The worldwide Messiah works so hard! In your limited area, you have to work harder than me. True Parents are needed on the family base, tribal base, and national base. To be a messiah means to be a parent, investing and forgetting from the parent's position. As children of True Parents you should think of what True Parents

are doing. With that determination in a short period of time, you can go beyond the level of a family messiah and become tribal and national level messiahs, approaching even the level of worldwide messiah. As the sons and daughters of True Parents, you should rise to the level of national messiahs. That is my original plan.

Centering on your family there should be 12 families. On that foundation of 12 families you need 72 families for the tribal level. Twelve represents Jacob's course, 72 represents Moses' course, 120 represents Jesus' course, and 160 represents the course of the Lord of the Second Advent. True Parents are working on a worldwide level to restore 160 nations; you should follow Jesus' course.

I gave In Jin the title of *chooksajang*. [See the True Parents' Day speech in the February issue of Today's World.] As a family-level messiah you absolutely must restore twelve families. The requirement for tribal level *chooksajang* is 72 blessed couples, and the requirement for the national level is 120 blessed couples. The requirement for the worldwide level is 160 blessed couples. Centering on 120 families you can connect to 120 nations. With 72 blessed couples you can connect to 72 nations. Do you understand? Through this we can save the all satanic nations. Your mission is to send twelve blessed couples as overseas missionaries.

When plus and minus are united, universal power and heavenly fortune will support us. This is the formula of re-creation. Centering on Korea, I reach out to the whole world, following the plus and minus formula of re-creation.

From now on the standard should be set by the seminary graduates. Therefore, the most excellent members should be sent to the seminary. The standard has not yet been fixed. This formula looks like an underground communist organization. Centering on the ideal family, we will extend to the world. This is the way we will follow.

For this new period, we should make a new system and create a new order. We should keep statistics on the number of hours you invest in fundraising and the number of hours you spend witnessing. Then we can analyze the statistics and set the standard. Your good ancestors will check everything every seven years. On that foundation we will set a standard. The first 21-year course was finished and a new 21-year course has begun. The first 21-year course was from 1960 until 1981. In 1982 the next 21-year course started. The third 21-year course is to make a new model nation. The purpose of the worldwide course is to make a new model nation. We should be responsible to invest in the establishment of a new model nation. Bring a bulldozer or some heavy machinery and dedicate it for making a new model nation. Members of 160 nations will work to establish that nation.

The Japanese women are working. Next the women of the archangelic world will work hard. Eve's nation women and archangel nation women join together to separate from the fallen world and connect to heaven. How hard will American women work? The women of the archangelic world should set a new archangelic tradition. This is something that the women, not the men, need to do. The women representatives of the Eve nation and the archangelic nation woman must work hard and set a new tradition. Do you understand? Really these are not my words. This is the viewpoint of the principle of restoration. You should proudly do hard work, bending your backs to do hard work. Will you follow Father's way? (Women answer, Yes!)

I am sending brother missionaries from Korea to 40 nations and 10 Japanese sisters to each of the 160 nations. Mother spoke at 40 universities in Korea, and on that foundation Koreans were sent out to 40 countries; each of those countries represents

4 nations. Forty times 4 is 160. Each country should expand its membership to 4,000; then they will establish sisterhood bonds. That is the future plan. Mother set the heavenly standard. Mother sacrificed and made a foundation; within one year each nation should expand to 4,000 members. Within each group of 4 nations, there should be 16,000 members who can establish sisterhood bonds; this will eliminate so much hostility. On that foundation I prepared 160,000 sisterhood pairs. These 40 nations, each representing 4 nations (160 nations altogether) will hold sisterhood ceremonies.

During the Korean War young people from 16 nations were mobilized. The number 16 is a multiple of 4. The number 4 is the total satanic number. The Cold War started from the Korean peninsula. People from 160 nations attended the 1988 Olympic Games in Korea. On the foundation of the Olympic Games, North and South Korea were admitted as members of the United Nations: North Korea was the 160th member and South Korea the 161st member. To indemnify the number 160, I sent sisters to 160 nations and instructed each nation to grow to 4,000 members.

Now brotherhood ceremonies between Korean and Japanese men have been held, with 16,000 participants. All of this is to indemnify the satanic number four and restore it to God's side. Because of the human fall we lost the four-position foundation. From Adam's fall until the time of Noah was 1,600 years. Those of you who attended this ceremony should return to your own country and raise up 4,000 people to participate in this sisterhood ceremony. Every country leader should focus on how to get 4,000 women to participate in a sisterhood ceremony. If you make such a condition the blessing of the connection between America and Japan will go to your descendants. Then all the surrounding countries can participate in the same partnership foundation. If you fulfill this, heavenly fortune will always protect you.

Our big, upcoming wedding is based on the number 36, which is four times nine. Nine is also a satanic number. Nine plus one is ten, and the number ten means reaching heaven.

National representatives, please raise your hands. I told Mr. Dong Moon Joo that each state should have some kind of sisterhood ceremony. If one state has a thousand participants, that will be a powerful foundation. Shall we do this? American side, how would you like that? The Japanese side has no problem; they always make complete preparations. Nora, do you understand? [I did not hear what you said.] Can you continue the sisterhood activity on a large scale, involving more Christian women leaders? Do you understand? [Yes.] This is the only hope for the survival of the Christian world. When women register, men will follow automatically. Men are no problem in America, because every woman is the owner of the home. Is that true? [Yes, I guess so.] Not guess. It is really so. [Laughter.] Women are the key to reaching the men's realm and making it strong. If you can make women strong, the men are no problem. Women are like the needle and men are like the thread. This is true. I understood clearly.

So we should continue. State leaders, please raise your hands. Please, when you return to your home state find 4,000 women to participate in sisterhood ceremonies; these people will be the new hope of the nation. If you do not do this soon, they will die. You should have this kind of strong foundation in every state. These sisterhood relationships will give you added power. Many senators and congressmen are interested in this activity. They think it is beautiful to have queenly power in their state. To gather a thousand women in one place will be no problem. The Japanese women have been developing a lot of contacts with public figures.

Is this a hopeful world or a hopeless world? [Hopeful!] Do

you think so? I have that kind of power all over the world. The Parents' Day proclamation was signed within 74 days. It normally takes fourteen years to get such a proclamation passed.

There are no enemies, no obstacles in front of us. Use the subject and object pattern to advance. Cain will follow us then.

God's springtime love is visiting the earth. The seeds of spring have the power to grow and produce flowers. Butterflies and birds will visit the flowers. All that is necessary is one springtime seed. So shall we decide to do this? Those who decide not to do so, raise your hand. [Laughter.] Someone was sleeping in the back and did not hear me, so I will repeat: raise your hand.

[Father speaks in Japanese:] Japanese members do you understand? Any problem? Mr. Takeru Kamiyama, do you understand? Yes! I am planning to send famous American leaders to Japan.

By now you have received enough from True Parents. You are representing True Parents. As kings and queens in place of True Parents, you should do your national mission. How do you feel? How many members will you gain?

How much money will you dedicate each month to establishing the new nation? How about \$10 or \$20 per month? Mrs. Yoko Kobayashi has been dedicating \$210 per month for the past two years ago. I personally directed her to do that two years ago. All the Japanese members in America should give the same amount. How about the American women? From now on, Unification Church members worldwide must dedicate money, like a heavenly tax, to the fund for establishing the new nation. That fund will be recorded in history. What is first and what is last is all clearly recorded in history.

I may invite the best of you on a world tour. I may pick the top fundraisers and witnesses and make them examples for the whole world. I may give an outstanding person a position in a worldwide business. If people are evaluated according to their achievements, no one can complain. Such a time has come. In elementary school and high school students are evaluated and on that foundation are recommended for a higher level. Not only good things and bad things will be checked but everything will be checked and evaluated. Therefore, all the national leaders should prepare such a kind of system.

Now I am preparing new leaders, centering on the Unification Theological Seminary and the University of Bridgeport. I want to train at least 4,000 centering on Bridgeport, Barrytown and Sun Moon University; then I can choose people and send them to the whole world.

Until today I just paid indemnity and did not check anything. From now on, everything will depend on your fulfillment or achievement. Now the time has come for me to check everything. I am preparing a standardized form to check. I will examine the computer records of our worldwide community, and if there is good achievement, True Parents may visit these countries. We will send some students to be the future leaders. Church activity and student activity will be recorded every month and every year. Centering on the World Mission Department, a recording system will start. Centering on the *chooksa-jang*, everything will be prepared.

All leaders should be seminary graduates; otherwise you are not professional church leaders. Even I graduated from the seminary in Korea. I am also planning to establish a graduate-level seminary at the University of Bridgeport.

Is this sparking the imagination in your brain? Do you have a clear idea?

Everyone stand up, please. The main leaders have to make preparations to drive bulldozers and heavy machinery. Do you understand? Woman leaders too. ■■■

### Let Us Become Tribal Messiahs

we do anti-communist activity? That work is for the police and the government." With no support, appreciation or encouragement, he developed Victory over Communism (VOC), an ideologically motivated community dedicated to undermining communist power.

The government asked us to take down our VOC signboard while it held Red Cross talks with the North. They put all possible pressure on us to prevent us from uttering such things as "anti-communism" or "victory over communism," because they said it was time to prepare for reconciliation between the North and the South. The more intense the situation became, the more effort Father made to promote VOC activities. He worked to awaken people in the government to the dangers of communism, and even teaching them specific ways to overcome communism. He said, "Although the North is shaking hands with our government, putting on a show of dialogue, it is engaging in ideological preparation [to conquer the South]. That is why there needs to be an organization such as our Federation for Victory over Communism. If we did not have such an organization, you should take the initiative to establish one and educate people, even at a private, non-government level."

Furthermore, beginning in 1984, Father brought world-renowned scholars to America and had them

hold conferences to study the fall of the Soviet Union, which absolutely no one believed would happen. All the professors laughed at the idea of the Soviet Union falling apart.

Think about how powerful the Soviet Union was at that time. When communism was steadily extending its influence over the world, Father told the scholars: "The fall of the Soviet Union is an established fact. However, when we look at the structure of the party, its army, economy or even its strategy to dominate the world, its breakdown is inevitable. Thus, I want you to research this."

In such a way, he coaxed those reluctant people into holding a conference in Geneva, Switzerland, in 1985, under the title, "The Fall of the Soviet Union."

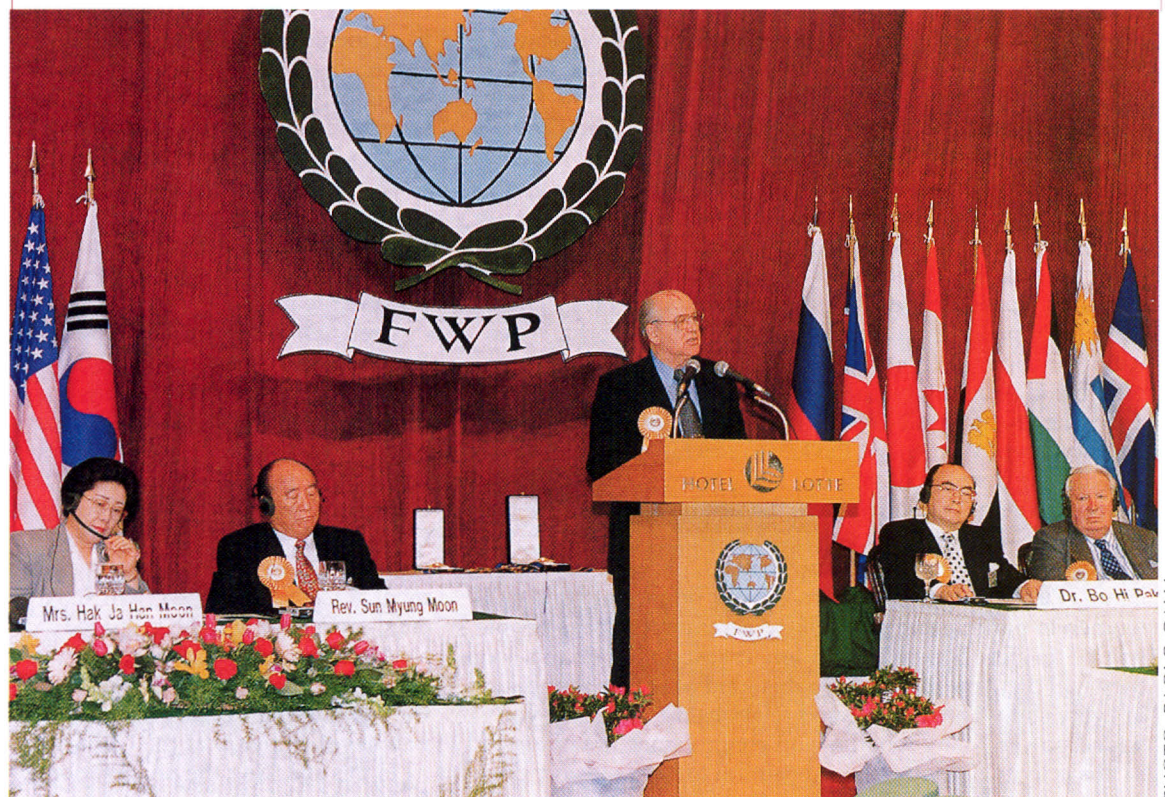

### Heavenly fortune and Father's efforts

Long before he gave us clear directions about those activities, Father had been thinking about them. Moreover, he directed us, who were completely ignorant of such matters, to knock on the tightly locked door of China. When I managed to get a visa and visited China for the first time, I was in such an anxious state that I could not sleep comfortably.

In this way, Father has worked to build up a foundation by sending people to China, North Korea and the Soviet Union.

From the viewpoint of heavenly law, Father knew that international communism would inevitably collapse. However, he did not just wait

Father visited the Soviet Union, knowing that the KGB had plotted to assassinate him. You probably cannot imagine how worried and strained Father was when he first set foot on Soviet soil. Wherever Father went and whatever he said or did, he was conscious that it would be witnessed by history. Father had to speak the truth, although danger was just one step away. He had to say what is right, even in such a turbulent environment.

H.E. Mikail Gorbachev, former president of the USSR, delivers the keynote address to the Second World Peace Conference, sponsored by the Federation for World Peace, in Seoul, Korea. Left to right: Mother, Father, H.E. Mikail Gorbachev, Dr. Bo Hi Pak, Sir Edward Heath (former prime minister of Great Britain).

PHOTO: PAOLO GALLI

for it to happen. He made determined efforts to shorten the time.

Father visited the Soviet Union, knowing that the KGB had plotted to assassinate him. I was with Father at that time. You probably cannot imagine how worried and strained Father was when he first set foot on Soviet soil. He could not avoid going there, even though he had to be very careful.

Wherever Father went and whatever he said or did, he was conscious that it would be witnessed by history. In addition, Satan was attentively watching everything Father did. God was watching too. There could not be any compromise, as Father had to act in an exemplary manner under such circumstances. Father had to speak the truth, although danger was just one step away. He had to say what is right, even in such a turbulent environment. Despite such difficulties, Father visited the Soviet Union and proclaimed: "You must believe in God or you will surely perish."

The position of communism is so distant from Father's position; in fact, they are exactly opposite. For former President Gorbachev to visit Hannam-dong and make a courtesy call on True Parents means that this powerful leader, who had been farthest from God and True Parents and closer to the satanic side than any one in history, offered respect to True Parents.

Communism is the synthesis and final fruit of the history of conflict between Cain and Abel. It represents the thinking of Cain, who rejected God and distanced himself from God, and is the substantial manifestation of the Cain-type lifestyle.

### *The threat of communism*

Communism does not say, "Do not believe in God." It says, "God is dead. There is no God. Those who believe in God are stupid and foolish. The religion that teaches people to believe in God is an unnecessary opium." God has no enemy greater than communism. Communism has been fulfilling such a role, not only ideologically but also substantially. For seventy years communist countries have been killing those who believed in God, persecuting religions, and invading countries close to God.

In fact, the Soviet KGB, the Red Army of Japan and Kim Il Sung worked together and planned to assassinate True Parents. Through the intervention of God, the hit-team was discovered when police questioned them about their suspicious behavior.

Although I have lived in America for more than twenty years, I have never been asked to show my identity card on the street. In America, people's identity cards are seldom checked and suspicious behavior is seldom questioned. It is inconceivable, but when the policemen checked the car they found dynamite in it and came across some of our church telephone numbers written in the driver's pocket notebook.

At first the police suspected us, because one of the telephone numbers was that of Morning Garden, the country house near Boston where Father stays in the summer. An FBI investigation

revealed that the target of the planned assassination was Father himself. Father stays at that villa in Boston every summer. What would have happened if some people had managed to get into the house and throw some dynamite? The amount of dynamite discovered was enough to destroy a seven-story building. The FBI found that the assassination plot originated from a conspiracy between the KGB and the Red Army. Through this, we can see how dramatically the KGB has opposed the central providence of God and True Parents.

### *Gorbachev, a prodigal son*

It is amazing that someone who is in a position as far from True Parents as Gorbachev, can come to know and respect them. He carried out a historic task. Without *perestroika* and *glasnost*, would the Soviet Union have collapsed so quickly? The fall of communism was inevitable, according to heavenly law, but the speed could not be predicted. Indeed, Gorbachev is a man who has greatly advanced the heavenly providence. He is a man who deserves special commendation in front of heaven.

We should regard this as the process of a prodigal son who came back after putting great distance between himself and his parents and doing all kinds of bad things. There is deep providential meaning in this that is related to tribal messiahship.

Father is educating a group of Japanese women every three days, in Sutaek-ri which is the village where the [Il Hwa] Central Training Center is located. Last evening at, 6:00, Father attended the opening reception of the Federation for World Peace conference. He and former president Gorbachev welcomed the many dignitaries who had come. Then, after having supper at Hannam-dong, he went back to Sutaek-ri and spoke until late at night. For Father, there is no difference between night and day.

Among the topics of Father's speeches to the Japanese women is the mission of the tribal messiah. Tribal messiahship has great significance in Father's heart and agenda.

### *Religious people left home*

Originally, human beings were expelled from Eden because of the fall. Therefore, fallen people are not living in their original home and garden. In their ignorance, fallen people feel that today is the same as yesterday, and tomorrow will probably be the same as today. They think that is all there is to life, just to live and work in their society and nation in this way. However, throughout history, people who were awakened out of their repetitive lives could not just stay in their homes.

Leaving one's home has been the principle of all religious teachings. Among the higher religions, have there been any that recommended following a life of faith in the comfort of one's home? Buddhist monks went to the mountains to pursue an ascetic life. They were not searching for truth just by staying at home. In Christianity, those who desired to devote themselves to living for others in front of God chose the celibate path of nuns or priests, which required them to leave their homes.

**Religious people followed a road that has neither an end nor a point of return. Religious people have been leaving their homes, without being able to say when they would return. Human beings were supposed to live with those closest to them—parents, brothers and sisters, spouse and children—sharing deep relationships of heart. However, the heavenly way has been to leave home.**

Once we receive the blessing and fulfill our responsibility, we come to stand in the perfected position of inheriting everything. We can become tribal messiahs because we inherit everything from True Parents, the Messiah. That is precisely tribal messiahship.

They had to do so because what humankind considered family life was not how God originally wanted it to be. Religious people followed a road that has neither an end nor a point of return. Religious people have been leaving their homes, without being able to say when they would return. That is the sad history of fallen people. Human beings were supposed to live with those closest to them—parents, brothers and sisters, spouse and children—sharing deep relationships of heart. However, the heavenly way has been to leave home. It might have been much better if we could have known when the departed person would return, but we could not know.

Of those countless nuns and priests, such as St. Francis, who sought the truth in this way, or Buddhists or Hindus who sought the truth through solitary meditation, no one left word of when they would return. And no one returned. Their only mandate was to leave.

So far no one has known this fact. Father has taught us, through the principle of restoration, why human beings must go the road of restoration. Because of the fall, we must pursue the path of restoration unceasingly to return to our original position. Restoration requires changing our direction 180 degrees. Where do we go after leaving home? Back to the original place at the time of the fall.

#### *Why we are fortunate*

Why are we Unification Church members fortunate? Because True Parents have established the foundation for the first holy family since the beginning of human history, we have the family for which God had been longing. The family of God's desire is totally different and far removed from those families that have belonged to the world.

Although as blessed couples of the Unification Church we have the ideal family as our starting point, we have nonetheless had to leave home, just like those who lead the life of an ascetic in the mountains.

Recently, however, True Parents told us to accomplish the mission of tribal messiah. Two amazing and extraordinary blessings are bestowed with the term "tribal messiah."

The first blessing is that of returning to one's hometown. Throughout human history, the path of restoration never included returning to one's hometown. Leaving home has been the norm. God did not tell even Noah to build the ark at his home. He told Noah to build it away from home. God called

Abraham to leave his hometown. God commanded Moses to leave. In the process of coming to know God and recognizing the divine way, many spiritual people left their homes.

Thus, True Parents' direction to the blessed couples to return to their hometowns, is the first of its kind in human history. It is a precious order from heaven. Of course, the Israelites were ordered to return to the land of Canaan as a special providential condition, but they had to stay in the wilderness for an extended period of time. Their experience was fundamentally different from the meaning of returning to one's hometown as we now understand it.

Since the command to return to one's hometown is the first such command since the beginning of human history, we should be aware of its value. To argue about the advantages and disadvantages of returning to hometown is idle debate, because confronted with the heavenly road and God's blessing of love, we are really unaware of the detailed background of this direction to return to hometown. Returning to one's hometown is the gospel of gospels, blessing of blessings, privilege of privileges. The value of returning to one's hometown is beyond description. As blessed couples, we are receiving that very blessing at this very time.

The second blessing is the title and position of messiah. Tribal messiahship is directly linked to returning to hometown. It is amazing to be a messiah. How on earth can we, born of fallen blood, become messiahs?

From the beginning of human history until the proclamation of tribal messiah in the Unification Church, there were only two messiahs on the earth. One was Jesus, and the other was True Parents. Although the adjective "tribal" restricts the meaning of messiahship, we have received a title which

only two persons since the beginning of history could attain. How can we express all its glory and value? It is beyond description.

### *Two core problems*

At 9:30 a.m., Father will give the address at the Federation for World Peace Conference. [See the May/June 1994 issue of Today's World.] I cannot remember all that Father wrote in his speech, but it goes something like this: "There are many complicated problems on the earth, but they can be condensed into just two problems. First is the problem between the unity of people's minds and bodies, and second is the problem between man and woman." That is all. Therefore, everything would be fine only if these two problems were solved.

The participating former heads of state will probably be impressed to hear those words today. Those whom we call heads of state, distinguished people who have ruled nations and spoken in grand terms in front of the world, have considered how to solve the problems between nations or the problems between east and west. Today, Father will reveal to them principles such as, "Instead of trying to think big, look into yourselves. Think about your body and mind. Can there be harmony in a family composed of individuals with inharmonious minds and bodies? How can harmony and peace come to societies and nations where there are families in which the husband, wife and children are not united? In the end, the problem of world peace is a problem of the individual mind and body." Furthermore, he will explain that the families that form the basis of society and the world are the problem, and that ultimately such families result from the problem between man and woman.

Think about that. If only these two problematic areas could be solved, there would be no problem in the world without a solution. Father's conclusion was that since the fall was committed in the family, the final resolution of everything should be made in the family. According to that principle, we must appreciate once more the significance of tribal messiahship.

### *Why our marriage is called "the blessing"*

Of course, tribal messiahship is what we inherit from Father. The Bible says that after creating humankind God blessed them with three great blessings. Through these blessings God has unconditionally bequeathed everything to His children. The second blessing bequeaths to Adam and Eve all the ideals of love and of the family that are in God's heart. The third blessing gives God's sons and daughters the position of lord of all creatures, just as God is Lord of the entire creation. These are the three great blessings we want to inherit.

Adam and Eve received the blessing as an inheritance from God. Therefore, the Unification Church refers to marriage not merely as marriage, but as the "blessing." Everyone knows the word "blessing," but no one knows its significance. Generally speaking, the Unification Church blessed

families are not well aware of the value of the blessing. Members know that the blessing means getting God's true love and true life, but they do not know that the blessing is the process through which we can actually inherit everything that belongs to God and True Parents. That is the original meaning of the blessing. That is why the blessing is so precious.

When we were blessed by True Parents, we received the blessing at the highest level of the growth stage. Once we receive the blessing and fulfill our responsibility, we come to stand in the perfected position of inheriting everything. We can become tribal messiahs because we inherit everything from True Parents, the Messiah. That is precisely tribal messiahship.

### *160 blessing candidates*

The fact that we as blessed families can have the title of tribal messiah means that we already received our certification of tribal messiahship at the blessing. Whether we received the blessing ten years ago or thirty years ago, God and True Father already promised us that they would make all of us messiahs.

To become tribal messiah means to receive what God and True Parents have already promised us. How impressive and blessed a thing this is! We should be so grateful. Many fallen people have led miserable lives, not knowing whether God exists or why religion is necessary. Only enlightened believers know that the Messiah is needed.

However, many Christians have no strong desire even to meet the Messiah. They lead a formal and habitual life of faith. How many of them want to meet the Messiah so much that they are willing to wait, at the risk of their lives, for the Savior who will return on the clouds?

What about Unification Church members? What about ourselves as blessed families? God and True Parents have already affixed the tribal messiah name-plate to our foreheads, awakening us, who had barely been aware of that title, to the amazing value of the blessing. That is the position we find ourselves in now.

Father said that each tribal messiah must raise up 160 people for the blessing. However, having completely forgotten the precious value of tribal messiahship, we are caught up in fears about how we can witness to 160 people and enable them to receive the blessing. This thinking is very wrong.

Why are 160 people required? Jacob established the principled number of twelve sons, Moses seventy elders and Jesus seventy disciples. To save the entire world, True Parents have to set up not just twelve sons, seventy elders or disciples, but 160 nations.

### *True Parents' clan and hometown*

In the narrow sense, True Parents' work as tribal messiah means to restore the clan with the surname of "Moon," but they already accomplished this long ago. Where are True Parents' clan and hometown? True Parents' hometown is not just Chungju [the district in North Korea in which

**Why are 160 people required? Jacob established the principled number of twelve sons, Moses seventy elders and Jesus seventy disciples. To save the entire world, True Parents have to set up not just twelve sons, seventy elders or disciples, but 160 nations.**

**We distributed membership application forms to the participants. Sixty-seven out of those 200 people filled in the form. For me, it was a record to receive 67 membership application forms in one day. The Bible says that 3000 people repented in one day, which now does not seem so difficult.**

Father was born]. Their hometown is the entire world. God created the world as Adam's environment. Thus the earth's five oceans and six continents are True Parents' hometown. In the narrow sense, Chungju is True Parents' hometown, and the people with the surname of "Moon" are True Parents' tribe. However, from a larger perspective, the entire globe is their hometown and all people are their relatives. In spite of their original sin and wrongdoing, all people are related to True Parents. Therefore, not just their relatives but anyone who joins the Unification Church unconditionally calls them, "Father and Mother."

When people who are not even distantly related to True Parents—even enemies and deeply sinful people—come and call him "Father," can Father say, "I do not know you?" Children may desert their father and say, "I do not know you," when their father calls them his sons and daughters. However, parents cannot desert their children. All human beings are relatives of True Parents—and not just ordinary relatives but sons and daughters who need to be born again. That is why everyone says, "Father," once they come to True Parents.

Since True Parents' relatives are not only the five billion people who are now living on the earth but also the people who are in the spiritual world, including hell, True Parents have to save the spiritual world. That is why I say that those who belong to True Parents' tribe are those with the surname "Moon" in a narrow sense, and all humankind in the broader sense. They are saving 160 countries, and those 160 countries represent the world.

When the former president of the Soviet Union made a courtesy call on Father, all the conditions that were possible to establish were fulfilled. That is why, as I understand it, yesterday was a historic day. Gorbachev is not just a former president. He is a truly respected person. It has been said that if the presidents of the world got together and, with a historical consciousness, cast their votes for the most excellent leader or greatest hero, there is no doubt that former president Gorbachev would be elected. He is a global hero and a representative of all the presidents of the world. However, he was in fact the son who was the farthest away from God in terms of blood relationship. The son who should have stood at the furthest point was the first to visit Hannam-dong and pay his respects to True Father. Heavenly fortune worked in that way. We have to believe in heavenly fortune.

Does it make sense to say we cannot gather 160 people from among our small tribe? We are afraid of our responsibility even before we try. We are fearful even before we actually do it.

### *One example of tribal messiahship*

I would like to say a few words about my own experience. Having listened to Father's words that we must proclaim our tribal messiahship, I made up my mind that no matter how busy I was, I also had to announce myself as a tribal messiah. So I went to my hometown and proclaimed it. I proclaimed it during the year when Father directed us to proclaim ourselves as tribal messiahs. Hang-

ing up a banner that read "Ceremony to Proclaim the Tribal Messiah," I gathered my relatives and neighbors in my hometown. However, as my relatives do not have a Christian background, they could not know what "messiah" means. Besides, since I am regarded as a heretic among my clan, some even said, "Why does he do this kind of thing all of a sudden, after having broken off relations for so long?"

Even now, I do not have enough time to build relationships with those in my hometown. However, in my mind, I am always thinking about how I can enable 160 people to receive the blessing. At a certain point this year, I felt that I should not delay it any longer, so I set up an opportunity to speak to my relatives. I made a plan one month in advance, to do it before Father returned to Korea. Since I could not go directly to my hometown, I got in touch with the head of that village, a Mr. Kwak who was a classmate of mine during elementary school, and is the regional leader for our church in the area. I asked him to set up a meeting at a condominium in Pugok at a certain time on a certain day. When I arrived, I found that more than 100 people were going to come.

I thought that it would be better for someone else to introduce me as a tribal messiah, rather than telling them myself. So I asked Dr. Hang Nyong Lee if he would take the trouble to come to my hometown. Dr. Lee opened the gathering by sharing some introductory words first about Father and then about myself. That introduction put me in a better position. Then I took the podium and spoke. I showed videos about Father and Mother, explaining everything that I had been previously unable to say. In simple terms, I explained about the blessing. My title was, "An Explanation of the Blessing for the Kwak Clan."

The urgent thing for me now is to find 160 blessing candidates. I told them all about the blessing. Some of the men came in traditional Korean clothes and others wore full uniform. Everyone, including daughters and daughters-in-law came.

Among my relatives, I am in the lowest position. Most of those present were grandfathers or great-grandfathers. Since they think highly of the *yangban* tradition [the Confucian class structure], very few of them address me in respectful terms. I wanted things to be different on this occasion, and noticed that they were listening to my words attentively. I declared: "We have to receive the blessing that our True Parents are giving. Seen from the viewpoint of family principles and the heavenly way, you should entrust your sons and daughters, grandsons and grand-daughters, to me for education." I even explained what the word "messiah" meant. I said, "I am the tribal messiah. Messiah means the savior of the world, someone whose words you should listen to absolutely."

After educating them in that way, I continued, "Your families are all false ones; your families are rejects in God's eyes, therefore, everyone must receive the blessing." Then I said what had been on my mind: "Can you call someone who is doing

this work, with those whom God has sent, simply 'Chung Hwan?' From now on, you should not call me that." Then there was a little commotion, some hiding their faces, others laughing, and so on. So I nailed them down, saying, "From now on, I am the tribal messiah. Do not call me 'Chung Hwan!'"

In spite of those words, the atmosphere was good, so we distributed membership application forms to the participants. Sixty-seven out of those 200 people filled in the form. For me, it was a record to receive 67 membership application forms in one day. The Bible says that 3000 people repented in one day, which now does not seem so difficult.

### *Witnessing to many people*

These days I think that I am the happiest of presidents. We have a grand revival service every three days, an opportunity that no other church president has ever had. Every third day, 5000 members of the Women's Federation for World Peace from all over the country gathered at the Olympic Stadium. Not all of them were church members.

At revival services in the past, I sometimes lectured the Principle to just one or two people. Even if only one new person came, I would be overjoyed and would lecture fervently until my throat became hoarse. But now 5000 people are gathering at a time. Could you find a happier president than myself?

The schedule for these sisterhood ceremonies was devised together with the regional church leaders with the hope that those who consecrated these sister relationships will receive the blessing next year. In this way we can fulfill Korea's portion of responsibility. So, coming straight to the point, I testified to these women, "Who are Reverend and Mrs. Moon? They are the True Parents whom God has sent." I spoke about the blessing, regarding the meeting itself as a short explanatory course. Then I went so far as to say, "At the time of the blessing ceremony next year, I will send all of you invitations. Please come and receive the blessing. You have to send all of your children and grandchildren to the Unification Church."

How great it would be if we could set up a television station and lecture the Principle on the air for a few hours! If all the Korean people could watch the program at the same time, everything could be solved in one day. I think I would be able to restore this nation if only I could have one day to lecture on television.

You cannot imagine how carefully people listen to the talks I am giving [at the sisterhood ceremonies]. If you cannot believe what I say, then come and see for yourself. We are doing this every three days. While lecturing, I became drunk with God's grace, wondering whether I was in a dream or reality. Recently someone asked me, "Reverend Kwak, how is it that you seem to feel so good these days?" I replied, "It is virtually impossible for me not to feel elated when, every three days, I speak at revival meetings of 5000 people. What is more, the audiences are responding positively

to the lectures."

Sometimes I wonder whether I am speaking too strongly and whether the "medicine" is too strong. However, as president, I have to say those things to make it easier and more natural for church leaders to talk about True Parents and the blessing when they later re-contact the participants. In every region and district, if we visit those who attended these meetings and help them to receive the blessing, it will add to our foundation.

### *Our task as tribal messiahs*

How do you think it felt to receive membership forms from 67 people in one day? It was a record for me, but I could not reveal my good feeling in front of my relatives. As only 67 out of 200 people submitted the forms, before they left I scolded them, "Why are you unwilling to receive blessings, even though we are here to give them? Those who did not fill out the application forms, do you not know that to receive your share of the blessing you must register? Why don't you fill it out, since God wants to give you a blessing? Now our people will come round to you. Those who did not fill out the form, please do so." After I said this, they promised to fill out the forms. I had only taken 60 pictures of True Parents' and 60 Unification Church flags with me, because I had not expected that so many people would come. I asked those who had filled out the form to hang up the flag and the picture when they returned home.

I mention these things to you not out of personal pride. What should we do after proclaiming our position as tribal messiah? There are two aspects of "tribal messiah" to consider. One is returning to one's hometown and the other is yourself as a messiah. You as a messiah should go back to your hometown. Even while bleeding on the cross, Jesus Christ, the Messiah and the Savior of this world, loved the sinful and evil enemies who were persecuting him.

Father came to this earth; for him this land is his hometown and all people are his relatives. That is why he loves mankind even when he is treated like an enemy. That is why he went to North Korea, which is like a lion's den, and met Kim Il Sung. That is why he visited even the Soviet Union, which had issued an order for his assassination. He succeeded in making all of them submit.

That is what we have to do as tribal messiahs. We cannot be tribal messiahs if we stay in Seoul. For those whose hometown is in North Korea or in Seoul, that is all right, but not for those whose hometown is elsewhere. We have to return to our hometowns. Even when we have a public mission, we always have to pray with that kind of heart and go there from time to time.

### *Follow my pattern*

After proclaiming our tribal messiahship, we have to hold a meeting to explain the blessing. Follow the pattern I have set up. If you cannot do it all by yourselves, please ask a lecturer to help you explain the blessing.

**We cannot be tribal messiahs if we stay in Seoul. For those whose hometown is in North Korea or in Seoul, that is all right, but not for those whose hometown is elsewhere. We have to return to our hometowns. Even when we have a public mission, we always have to pray with that kind of heart and go there from time to time.**

**Believe in  
Father's words  
and follow them.  
Please follow  
your conviction.  
We should do  
what Father has  
directed. If we  
do our best as  
tribal messiahs,  
it may not be so  
hard to find 160  
blessing  
candidates. You  
do not need to be  
burdened. First,  
teach the  
Principle and  
proclaim your  
tribal  
messiahship.  
Then hold a  
meeting for your  
tribe to explain  
the meaning of  
the blessing.  
Those among  
your tribe who  
are interested  
will come in  
large numbers.**

Do you know how much abusive language I received in my hometown? I was the heretic of my family. To do what I did was beyond imagination. But now the time has come.

How could I do that? It was not because I was so good. We ourselves are nothing, but the time is ripe for us to gather our relatives and have them accept what we say, based on Father's reputation and worldwide foundation. That is why I say we are fortunate people. Since Father has affixed the name-plate of tribal messiah on us spiritually, and is helping us by mobilizing the spirit world, we have to work in our hometown. Try it! How do you think you can find 160 people unless you begin now?

One participant suggested to me that we make a video tape of my experience so that other members can follow the pattern. I asked our video department to do that. Watch the video tape and try to imitate it. Amazingly enough, the strategy works. It is being done now. The time has come. There is no need to think that it is difficult.

We are surrounded by spiritual protection; we only have to believe and go out. We must simply be confident and work from our respective positions. There are only two reasons why we might fail: because we are not confident or because we are idle. Father and Mother are working on the front line night and day. We should not be idle.

#### *Attend the early Sunday service*

When I said, "Today, I am again in an awkward position of preaching to all those who came to listen to Father's words," one of the officials said, "It may be so, but there are some consoling aspects, too." I asked him what he meant. He replied, "How would it have been if Father had come here and seen so many empty seats? We were worrying about that. Now, it is good that you have come, President Kwak."

How many more times will we be able to listen to Father's words in our lifetime? Ten thousand? One hundred thousand times? Even if we have no chance to listen to Father's words, we should make all possible effort to listen to his words during our physical lifetime. I do not know how and why the Korean members have reached the point that they do not come even when Father is going to speak. What is to be done? Of course, you who are present should not have to hear this, but what shall we do about this situation? It is very regrettable to see that our hearts have become like that.

I ask you to lead the members around you. Please give them stimulation. Bring at least a few people along with you from now on.

Every Sunday, I worry about what to do if there are empty seats when Father is speaking. Should a church president need to worry about such things? Should a president have to be concerned about such a problem, as if he has too much extra time? Even if you bring only one extra person, that might save me such a worry. Please help me.

We have completed an auditorium in Sutaek-ri that can accommodate 5000 people. Thousands of Japanese are receiving training there now. We

converted it, at a cost of two billion *won*. A few days ago, on his way to Sutaek-ri by car, Father said, "Now we shall have to hold the early morning service on Sundays here in Sutaek-ri." I felt as if I would lose my mind at that moment. Imagine the number of people here now in a hall that can hold 5000 people! Since Father has mentioned it, he may direct us to hold the early service there.

With this in mind, what should we do? Instead of worrying about how to fill the room with 5000 people, just bring one more person each time. What is more essential than listening to Father's words?

#### *Now is the harvest time*

We have to march forward in step with providential fortune. The autumn harvest is very important. If the wind flattens the ripened rice, it can destroy a whole year's work. By harvest time, the rice fields should be properly drained and prepared. The same applies to our lives of faith.

From the viewpoint of the entire history of the providence, this is the final harvest. Our attitude at this moment is very important. If we are wise, we should be more attentive and mindful of Father's goals and the main directions and phases of the providence. These times are different from the usual ones. During a time of crisis or war, we must prepare our baggage precisely at the right time. If we try to go early we may suffer more problems, and if we go later we may not be able to leave at all.

Since this is the critical time, we should open the ears of our hearts and try to catch what Father is emphasizing as providential at every moment.

Since Father has already given us the title "messiah," we have to be sincere and do what we are supposed to do as messiahs. We became messiahs not because we are good and prepared, but because Father has cleared out our sin, called us, and clothed us with messianic armor. We became messiahs because he attached the spiritual name of messiah of a certain family to us, and we have to follow our heavenly fortune.

Believe in Father's words and follow them. Please follow your conviction. We should do what Father has directed. If we do our best as tribal messiahs, it may not be so hard to find 160 blessing candidates. You do not need to be burdened. First, teach the Principle and proclaim your tribal messiahship. Then hold a meeting for your tribe to explain the meaning of the blessing. Those among your tribe who are interested will come in large numbers. They will be more interested in us now than ever before.

Through Gorbachev's visit to the recent Federation for World Peace Conference, Father gave each of us the biggest "hydrogen bomb" in the world. The fact that Gorbachev visited Hannam-dong was a great event. Any thoughtful and interested Korean will now look at Father in a different light. That was not an ordinary event. Such things are happening because the time has come. Therefore, we must just go out. True Parents' worldwide foundation is supporting us.

We have made a pictorial album of the First World Culture and Sports Festival. You may think it is expensive, but it is very well produced. I do not see any reason why you would not be able to witness with that one book. It is all right if you cannot lecture the Principle. Just show others the pictures in this book, and people will open their eyes and will see you in a different light.

Furthermore, we are now in the course of producing a pictorial album of Father's forty-year ministry that began with the establishment of HSA-UWC. That will be an heirloom for each family. Now, you only have to carry a few items with you. Other things are superfluous. Moreover, on the fortieth anniversary of the founding of the association, we will publish a Korean version of *World Scripture*. If you take such books with you, nothing else is necessary. Are there not good video tapes also? In this way, Father has given us artillery, airplanes, rockets and now even hydrogen bombs. Then how is it that we cannot restore our hometowns and relatives?

### *Believe that it will work*

I ask you to make a special effort in that sense. Please do not think that you cannot do it. Instead, brighten your faces and walk around with excitement. It is time that we were filled with excitement. Please do not grimace. We should not concern ourselves with unimportant matters. I sincerely hope you will fulfill the mission of tribal messiah, going around in high spirits.

Listening to Father speak so seriously about the precious value of tribal messiahship to the Japanese all night long, I felt, "Father is teaching us about tribal messiahship with all his heart, yet we have regarded it only as a burden, not knowing that it was a blessing." Isn't that how it is right now? We say, "Oh, he is telling us to return to our hometowns once more! But how do we fulfill the heavy mission of a tribal messiah?" We should not regard it as a burden. It is the supreme blessing. It is to make us eternal messiahs.

In that sense, I ask you to fulfill the mission of a tribal messiah this year with deep gratitude. Through that, we can fulfill our responsibility to enable 160 people to receive the blessing and fulfill the demands of the providence as tribal messiahs. Let us pray.

### *Prayer*

Beloved Heavenly Father! In a position that the people in the world cannot contemplate, and even we ourselves who are following True Parents cannot imagine, Father has woven the fabric of history and connected human history with the focus of the providence. When we think of our True Parents, who are creating and fulfilling the amazing and miraculous proclamation before us, how can we fully offer our gratitude?

Father, today the Federation for World Peace Conference will open, and Father will give the keynote address. We know that it is True Parents' earnest proclamation, not only for the representatives gathered there, but also for all the leaders

of the world and mankind. We sincerely pray that on this occasion You will pour out Your blessings on all the people and leaders of the world, so that the good and righteous leaders who are struggling with current problems can recognize that the only way to resolve their heavy burdens and difficulties is through the Principle that True Parents have brought.

Heavenly Father, You have given us the amazing title of tribal messiah and handed down all the blessings we need to fulfill our mission. We are truly sorry that we have not been able even to gather into our own baskets what You and True Parents have given to us. Father, You allowed us to have Your blessing, the historic foundation of goodness that You have prepared, the fruit of the efforts that True Parents have made throughout their lives, and the wonderful title of messiah. We sincerely pray that You will grant that we become wise people who can preserve those blessings and who can follow True Parents' path and directions.

We are internally ugly and ill-prepared, we have fallen habits, we roll in sin and evil, we do not live according to what we hear, and we do not lead lives that resemble True Parents in all their efforts. We have indeed lost the faith to beg any pardon. In spite of that, Father thinks of all people as his relatives, and especially of us blessed families as his own blood. When we see True Parents exerting themselves to save and lead us, we must confess that we are still far from True Parents and are sorry in front of them.

Heavenly Father, the Korean church's special directions for this year are to become inheritors of tradition, educators of this nation as the heavenly people, and to fulfill our responsibility as tribal messiahs. Thus, we deeply pray that by fulfilling this precious responsibility through Your guidance, we can fulfill Father's blessing.

Father, as an inadequate son, I have spoken these words in place of True Parents. I pray that these words can be ingrained even a little in the hearts of our beloved brothers and sisters so that they bear fruit and this Korean altar can return glory to True Parents. Father, we should not be in the position to receive chastisement in front of True Parents. We pray that You will let us be caring believers who can receive recognition and praise from True Parents.

Father, far away, in America, True Children are following in the footsteps of True Parents; they are speaking at 100 universities, following a tight schedule. We pray that You will create an amazing spiritual work and protect, with special heavenly grace, the road True Children are walking to set straight the future of America. May a good and righteous wind blow anew among our second generation and throughout the universities of America.

I wish that You may bestow the same grace on the Unification children all over the world and on the gatherings that happen in the name of the True Parents. We thank You and pray in their holy names. Amen. ■■

**I ask you to make a special effort in that sense. Please do not think that you cannot do it. Instead, brighten your faces and walk around with excitement. It is time that we were filled with excitement. Please do not grimace. We should not concern ourselves with unimportant matters.**

# Ideal World and Modern Western Democracy

Zin Moon Kim

**T**HE more the various social systems resemble ideal human society, the greater our chance for leading a happy life. The core of the human mind is the original conscience, which feels joy through giving; the human body is the system of vertical order centered on the head.

Even though the head is located on top of the body, it exists for the whole human body. The human body is sustained by its absolute obedience to the orders of the head. The human body, centered on the head, connects with the original conscience as its subject. It absolutely obeys the original conscience as its object. Its original conscience serves the human body unlimitedly.

Therefore, in the ideal nation, there should be: (1) a fundamental national ideology or national spirit which corresponds to the absolute original conscience of joyful love coming from giving, based on the vertical standard; (2) a government corresponding to the head, following the original conscience, centered on the absolute and vertical standard; and (3) a peo-

***We should discover the vertical cause of absolute, self-giving love, learn its purpose of creation and create horizontal harmony based on that purpose.***

ple, corresponding to the body, obeying the head.

A good founding ideology requires an ideology of true, divine love, which is absolute and vertical and is based on giving. The standard of value for individuals and couples should be clearly expounded in

this ideology, because individuals and families form the base of the country. For this, we should logically understand our Creator, God, and His purpose in creating man and the universe.

## **Western democracy from the viewpoint of the ideal world**

Simply speaking, Western democracy was created by white people out of a motivation to repulse the oppressive

vasive individualism causes moral and ethical problems. Complaints, disharmony and lawsuits result from people's concern for private benefit. Society becomes one in which the small use the greater for the smaller's sake. For example, a political party uses the country for the party's sake or a country uses the United Nations for the country's sake. Therefore, the purpose of the greater whole cannot be accomplished.

***A good founding ideology requires an ideology of true, divine love, which is absolute and vertical and based on giving. The standard of value should be clearly expounded in this ideology, because individuals and families form the base of the country.***

monarchic rule. Therefore, democracy has no affirmative motivation and is not universal. It is a purely Western political system and neglects the Orient, the birthplace of major religions which are themselves the center of human culture. Accordingly, in Western democracy, there is no absolute, vertical ideology of a love which is giving in nature; rather, it is based on an individualistic ideology centered on a love which is taking in nature. Therefore, democracy does not harmonize the people with their government, but enables each to hold the other in check. Therefore, the longer Western democracy persists, the more serious contradiction it will develop, such as: Democracy exists for the individual, not for the people as a whole. It advocates equality before the law, but because the lawmakers are imperfect, such equality has not been realized. It became centered on white Western people only. Its economic system, capitalism, results in great gaps between the rich and the poor. Per-

Today, all of these kinds deficiencies are gradually sweeping over the whole world. Materialistic communism, which does not recognize the human mind, has already collapsed. However, Western democracy, centered imperfectly on the mind, still does not recognize its internal contradictions and how it has pushed people into ruin.

Neither body nor mind is the vertical cause; they are horizontal results. Therefore, we should discover the vertical cause of absolute, self-giving love, learn its purpose of creation and create horizontal harmony based on that purpose.

History bears witness that a good monarchy is better than a democracy, especially in elevating people's moral and ethical standards, because the vertical standard exists in a monarchy but not in a democracy. The contradictions within democracy, and within the capitalism which is based on it, come from the collapse of the vertical and horizontal family ethic. We must not become bad par-

**Rev. Zin Moon Kim**

ents who bequeath such a society to our beloved descendants. Therefore, unless we establish righteous family ethics, both democracy and capitalism will finally come to ruin and we will become bad ancestors. All politicians, educators and businessmen should understand that without a righteous family ethic they cannot accomplish their tasks. The family is the first educational institution for human beings. The family education which a person receives while growing up, influences his whole life.

### **Our effort and the ideal world**

Everyone without exception wants to live in a happy, ideal world. This is not a vain dream; we can make such a world.

***The family is the first educational institution for human beings. The family education, which a person receives while growing up, influences his whole life.***

To create this happy ideal world: First, we should find out, follow and attend the person who is completely familiar with God, the vertical standard, has providential position and is heartistic substance (absolutely for others). He is the Messiah, but True Parent in the family.

Second, we should clearly understand God's principle of creation, the meaning, motivation and results of the human fall and God's principle of restoration, through which we can feel the blood, sweat and tears He shed in search of His missing children. Third, we should clearly understand Unification Thought, which critiques

and puts all areas of human thought into a Principled perspective.

### **Summary of Unification Principle and Thought**

Roughly divided, the Unification principle consists of three parts: the principle of creation, the fall of man, and the principles of restoration.

Unification Thought is based on the Unification principle of creation. It con-

tains thirteen chapters. We can surely solve all kinds of social problems by applying the wisdom of Unification Thought.

- "The Theory of the Original Image" clarifies the attributes of God, who is the Creator and Cause of all creation.
- "Ontology" clarifies how the creation is similar to God.
- "The Theory of Original Human Nature" clarifies the original standard of human beings.
- "Methodology" clarifies the method of studying the truth.
  - "Epistemology" resolves the unsolved points in traditional epistemology and overcomes the communist epistemology.
  - "Axiology" clarifies the true view of value and its standard.
  - "Logic" clarifies the principles and forms of thinking.
  - "Ethics" clarifies the ethics to realize the love of life for others.
- "The Theory of Art" clarifies the significance and mission of art.
- "The Theory of Education" clarifies the significance, purpose and goal of education.
- "The Theory of History" clarifies the purpose, direction and laws of history.
- "Economics" solves the problems of capitalism by clarifying the origin of "mine" and that "mine" is also "ours."
- "Politics" demonstrates that the true country should be based on

the family system.

(The theories of Economics and Politics are not yet published.)

### **Conclusion**

Because today's democracy and capitalism are based on a nearsighted individualistic and materialistic way of life, their adherents will have eternal regret. For our descendants to have happy lives on earth, and for us to live in eternal

***For our descendants to have happy lives and for us to live in eternal happiness, we should deeply understand Unification Principle and Unification Thought. Based on that understanding, we should attend True Parents and establish the ideal world.***

happiness in the spirit world, we should deeply understand Unification Principle and Unification Thought. Based on that understanding, we should attend True Parents and establish the ideal world.

Because the Unification Principle and Unification Thought are original theories, they are developed deductively. Therefore, to understand them properly, we should approach these theories affirmatively.

Let us establish the ideal world through studying these two heavenly theories. ■■

UNIFICATION THOUGHT INSTITUTE

# Out of Africa

Ron McLachlan

*Robert Williamson—a Scot born in Africa—returned to Edinburgh, his hometown, after spending almost seventeen years in Zambia. Robert joined the church in Edinburgh in 1973. After approximately three years' work in various missions in Britain and America, he was asked to go to Africa as a missionary. He was joined in his mission by a German and a Japanese brother and, under the direction of Reverend Chung Hwan Kwak, began the historical restoration of Zambia. His work there almost immediately grabbed the attention of the church leadership when he started a sausage factory and retail businesses as outreach projects. This approach proved to be very successful. Robert served as African regional leader headquartered in Zambia and later in the Ivory Coast. His last mission, prior to hometown, was in the Commonwealth of Independent States (the former Soviet Union).*

**W**HAT does a missionary do when, retiring from the foreign field, he returns from Africa to his hometown? He starts a bakery of course!

A few days ago, I was fortunate enough to meet up with Robert Williamson at his bakery-cafe in the Marchmont area of Edinburgh.

Many people have asked me to do features on how people are managing financially in their hometowns. I welcomed this chance to interview Robert at work.

**RON MCLACHLAN (RM):** Before you returned to your hometown, had you been thinking about how to manage financially?

**ROBERT WILLIAMSON (RW):** Well..., when Father talked about it a few years ago, it was on my mind, as it probably was for everyone, but I did not have a structured plan. A series of circumstances led to my coming here.

**RM:** What were your feelings when the day arrived for you to come home and can you remember your first impressions when you saw Edinburgh and Scotland after your many years in Africa?

**RW:** My first impression was that everything was exactly as I had left it twenty years earlier! When I left in 1973, to go to America, there were about five members in Edinburgh and when I came back in 1993 there were still five mem-

bers. The only difference was that these members were now blessed. There had not been a huge external development but there had, of course, been a maturing; instead of single members there were now families trying to organize the next level of their lives.

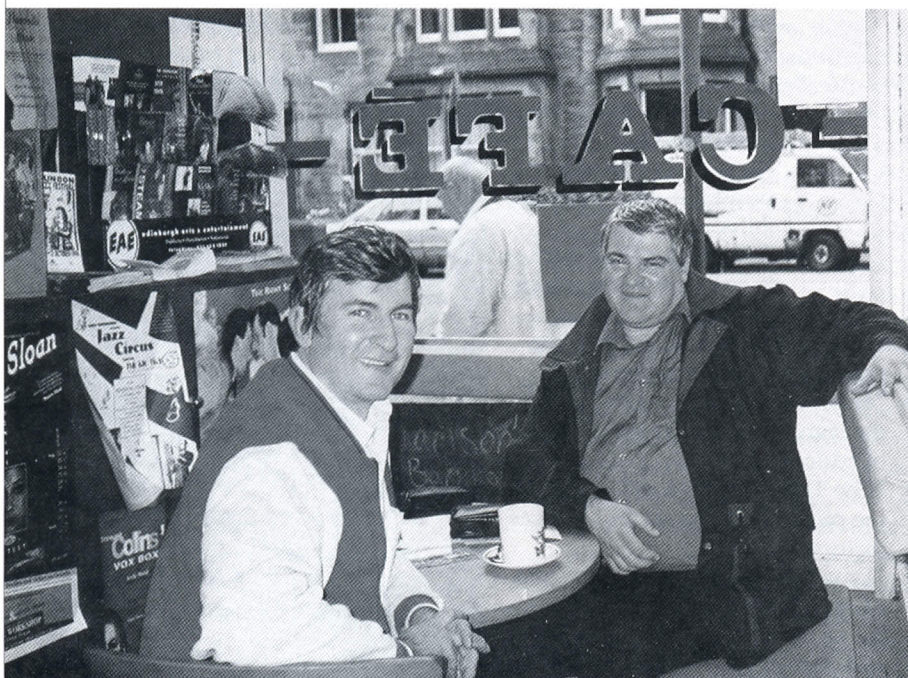

Being a missionary in Africa, I was quite used to fairly large Sunday services and, in my last posting in Russia, we also had extensive activities going on. That was in Rostov-on-Don in Southwest Russia where, in our activities, we could usually generate an audience of several hundred people.

**RM:** You seem to have been able to set up your business here quite quickly—more or less within a year—do you have some background or experience in this field?

**RW:** Well, yes. Before I joined the Church, I was studying hotel management at Napier Technical College (as it was then called). I had finished my first year when I dropped out and became a missionary.

In Africa, we had a sausage factory and several retail outlets so, over the years, we learned how to run this type of business, i.e. food and take-away. Basically I just know about food and food-related businesses. When I came back from Russia last September, my wife and I thought about what to do. The first thing of course is capital—we are in a capitalistic country—so we approached our English and German relatives and got loans from both sides of the family so we could start this little business here.

**RM:** Many members who have not yet started their hometown work are really concerned about economic matters and when they see other families in their

hometowns having a difficult time, they feel discouraged and uninspired about going to their hometowns. Before you returned to Edinburgh were you worried or anxious about how you might survive and even prosper financially?

**RW:** Yes, of course, we were concerned, but I remember years ago that Father said we must get the cooperation of our relatives. Our mission internally is to save our families but also they have to give us the birthright. So whatever is due us, in terms of inheritance or anything else, must come to our side. So, with this in mind, we have always tried to keep a good relationship with our relatives. We have visited them as much as possible and written letters and we looked to the day when we would need their assistance.

**RM:** Did you actually think that out?

**RW:** Oh, yes, quite a few years ago. Because we are a transitional generation, unless we get the financial, external and material support of our relatives we will find it difficult to make a go of it in our hometown. Many parents may harbor resentments against the church, perhaps because we dropped out of college or left a good job, but when they see their grandchildren, that can become the heartistic point of unity enabling them to connect to us.

**RM:** That seems to be a very clear

understanding of the third blessing.

**RW:** Yes, perhaps that is true.

**RM:** Is there any advice you feel would be valuable to give to members who are thinking about starting a business or returning to their hometowns?

**RW:** Well, this is my first experience running a business in a developed country and it is, in some ways, more difficult here. In Africa, there is more freedom and fewer regulations. The rules and laws in Britain are quite explicit and have to be followed. I think the first thing you have to do is work out your cost; you need to get a very good lawyer. This is very expensive, but well worth it in the long run.

For example, the lawyer can find out for you why the business you are thinking of buying is getting sold. Is there a genuine reason or circumstance for selling that business? The most important thing you have to look at is the location. Is the seller trying to get rid of the business for reasons of low turnover and lack of customers? Are the walls about to collapse in two or three months time?

This is why you need to invest in a very good lawyer by referral. In my case, my stepfather had some good connections and he referred them to me. The main thing is—as I said, because this is a capitalist country—you need to have enough capital in your hands. The only way I

can see that this can be achieved is if the relatives come together and offer financial help in the shape of interest-free loans. Without this, it is very difficult because we would have had to go to banks and other commercial institutions.

**RM:** What is your hometown vision?

**RW:** Well, I joined the church when I was nineteen years old and I am now 42. I think that after forty, I began a new life. I starting something completely new, from the very bottom again, and worked my way up. I am quite interested in working in the political field and of course I cannot just become an MP (Minister or Parliament) overnight; I have to start again from zero. I will also be studying with the Open University and will read Society and Social Studies. To move things in this country you need to have a foundation which society can respect and understand, therefore, we should work in the community.

**RM:** What other advice would you give to members?

**RW:** I think that it is vital to live a public life. We have to be seen in society; doing things in society. If one becomes centered on oneself, it is very difficult for God to work through us in the community. We need to have public positions and live publicly, then God can work. ■■

**As tribal messiahs you should be responsible for all the families and relatives. Later you will be national-level messiahs. As a messiah you must take care of everything that is happening in your nation and be responsible for it. We will organize people as family messiahs, tribal-level messiahs, national-level messiahs and worldwide-level messiahs. As messiahs you should always compare yourselves to Father, the worldwide Messiah, and the hard work he has been doing until now.**
